Forgotten Women: The Artists Zing Tsjeng, Zhi Ying Tsjeng, 2018-09-20 To say this series is empowering doesn't do it justice Buy a copy for your daughters sisters mums aunts and nieces just make sure you buy a copy for your sons brothers dads uncles and nephews too Independent The women who shaped and were erased from our history *Forgotten Women* is a new series of books that uncover the lost herstories of influential women who have refused over hundreds of years to accept the hand they've been dealt and as a result have formed shaped and changed the course of our futures The Artists brings together the stories of 48 brilliant woman artists who made huge yet unacknowledged contributions to the history of art including Camille Claudel the extraordinarily talented sculptor who was always unfairly overshadowed by her lover Rodin Baroness Elsa von Freytag Loringhoven who has been claimed as the true originator of Marcel Duchamp's Fountain and Ana Mendieta the Cuban refugee who approached violence against women through her performance art before her own untimely death With chapters ranging from Figurative to Photography and Craft to Conceptual this is an alternative guide to art history that demonstrates the broad range of artistic movements that included and were often pioneered by female artists who have been largely overlooked The number of Nobel prize winning women *The Ecology of the Performance Art Process* Angela Viora, 2025-02-25 This book offers a new dynamic and ecological perspective to analyse the process of performance art namely what occurs during the unfolding of a piece exploring the essence of its happening through the forces at play The author's aim is to provide a deeper understanding of performance art which the existing scholarship acknowledges as an art form that actively engages with the world Much work has been done on the transformative effects of performance art on the artists and the audiences and its impact on society over time The author takes this perspective further by asking how does this transformation happen Little work exists on exploring the forces and dynamics occurring while a performance is developing neither before nor after but during it This is the first and main gap that this book fills given the importance of process and processuality as the characterising features of this art form By filling this gap this book offers a new way to understand performances and their impact in the world and over time as well as providing practitioners

with tools for performing and designing their works starting from the process rather than focusing on the outcomes This book studies the matrix of the performance art process by conceiving it as an ecosystem in which all the elements at play animate and inanimate are agentic and intertwine in relationships of mutual influence and exchange This book will be useful for scholars and practitioners of performance art and performance studies practice as research PaR visual culture art history and philosophy especially phenomenology *The Literariness of Media Art* Claudia Benthien,Jordis Lau,Maraïke M.

Marxsen,2018-09-21 The beginning of the 20th century saw literary scholars from Russia positing a new definition for the nature of literature Within the framework of Russian Formalism the term literariness was coined The driving force behind this theoretical inquiry was the desire to identify literature and art in general as a way of revitalizing human perception which had been numbed by the automatization of everyday life The transformative power of literariness is made manifest in many media artworks by renowned artists such as Chantal Akerman Mona Hatoum Gary Hill Jenny Holzer William Kentridge Nalini Malani Bruce Nauman Martha Rosler and Lawrence Weiner The authors use literariness as a tool to analyze the aesthetics of spoken or written language within experimental film video performance moving image installations and other media based art forms This volume uses as its foundation the Russian Formalist school of literary theory with the goal of extending these theories to include contemporary concepts in film and media studies such as Neoformalism intermediality remediation and postdrama *The Phenomenology of Blood in Performance Art* T.
