

With the Pioneer® Projection Monitor, in one masterstroke, not one but every compromise associated with projection television has been eliminated.

## **PIONEER INTRODUCES THE WORLD'S FIRST PROJECTION MONITOR.**

In fact, the Pioneer SP-D40 is not just superior to any projection television, it is actually brighter than any direct-view monitor.

Imagine a projection monitor with a picture sharper than any television, brighter than any television, with twice the contrast of any projection system ever made.

With the Pioneer Projection Monitor, light in the room is no longer a problem. You can sit anywhere in the room. It's no problem. Focus, so much a problem with conventional projection systems, is sharp to the edges of the screen.

Blacks are blacker, whites are whiter. And for the first time, true skin tones are achieved without compromising the other colors.

The Pioneer Projection Monitor comes with its own built-in powerful amplifier (12W + 12W) and speakers. There's a built-in video tuner that delivers 139 cable-capable channels. In stereo. In simulcast. If you'd like, there are enough inputs to make this monitor part of the most sophisticated audio/visual system.

It's ready for anything.

And the entire system is controlled by one 54-function System Remote control.

This remarkable video achievement is the result of 3 years of development in the Pioneer laboratories. You'll see the result in seconds. One look and you'll understand the difference between the world of projection televisions and the first projection monitor in the world.
