Catalog of Copyright Entries Library of Congress. Copyright Office, 1957 *The Selected Writings of Jan Patočka* Jan Patočka, 2022-03-24 Jan Patočka's contribution to phenomenology and the philosophy of history mean that he is considered one of the most important philosophers of the 20th century Yet his writing is not widely available in English and the Anglophone world remains rather unfamiliar with his work In this new book of essential Patočka texts of which the majority have been translated from the original Czech for the first time readers will experience a general introduction to the key tenets of his philosophy This includes his thoughts on the relationship between philosophy and political engagement which strike at the heart of contemporary debates about freedom political participation and responsibility and a truly pressing issue for modern Europe what exactly constitutes a European identity In this important collection Patočka provides an original vision of the relationship between self world and history that will benefit students philosophers and those who are interested in the ideals that underpin our democracies **Eugene O'Neill's Last Plays** Doris Alexander, 2005 This study draws on research concerning the lives of Eugene O'Neill his family and his circle It corrects and expands the biographical record on him and distinguishes the man and his life from the creations that were inspired by and drew on that life Included are his attempted suicide his tuberculosis and his relationship with his parents **Jacob Sigismund Beck's Standpunctslehre and the Kantian Thing-in-itself Debate** Lior Nitzan, 2014-06-25 This book examines the unique views of philosopher Jacob Sigismund Beck a student of Immanuel Kant who devoted himself to an exploration of his teacher's doctrine and to showing that Kant's transcendental idealism is contra to the common view both internally consistent and is not a form of subjective idealism In his attempt to explain away certain apparent contradictions found in Kant's system Beck put forward a new reading of Kant's critical theory a view which came to be known as the Standpunctslehre the Doctrine of the Standpoint Author Lior Nitzan reconstructs step by step the historical development of Beck's doctrine He shows how Beck's unique view is drastically different from that of his contemporaries and presents the relevance of Beck to contemporary debates about the proper interpretation of Kant's notion of objectivity the refutation of idealism and the role of the thing in itself in Kant's transcendental idealism In doing so Nitzan presents a defense of Beck's radical perspective of Kant's theory and claims that some of Kant's negative responses to it may in fact be due more to the adversary academic environment at the time than to Kant's true well considered opinion Jacob Sigismund Beck's Standpunctslehre challenges the two dominant schools in the interpretation of Kant's transcendental idealism the two world and the two aspect view It presents a new way of understanding Kant's transcendental idealism according to which the thing in itself plays no positive role in relation to the possibility of experience Moreover it claims that eliminating the thing in itself as the ultimate object of knowledge is not to admit idealism but in fact is the only way to consistently uphold realism In addition the book also addresses the question why assuming that the proposed interpretation is correct Kant had chosen not to make his true intentions clear **Cultural**
