African American Student's Guide to College Success F. Erik Brooks, Glenn L. Starks, 2015-10-21

This encouraging guide coaches African American and first generation college students on strategies for maximizing their experiences and success on university campuses. Marked gaps in academic achievements continue to exist between white and black students on college campuses in America. This motivational book with contributions from academic role models from within the African American community provides tools to help ethnically diverse students choose the best college, improve their study skills, and cope with academic anxiety. From college selection to graduation, this practical resource provides firsthand accounts of successful college experiences and the strategies used by former students to obtain their degrees. This work is divided into four parts: After an introductory section that addresses how to find the right college for aspiring students, the second part discusses the culture of an academic environment and reveals what incoming students may discover on a new campus. The third section introduces the language and lingo used in college settings. Finally, the guide concludes with conversations with successful African Americans who have achieved their undergraduate, graduate, and professional degrees. The content also features a helpful college and university directory.

Account Books of the Mercers of London Lisa Jefferson, 2016-04-15 As the premier livery company, the Mercers Company in medieval England enjoyed a prominent role in London's governance and exercised much influence over England's overseas trade and political interests. This substantial two volume set provides a comprehensive edition of the surviving Mercers accounts from 1347 to 1464 and opens a unique window into the day to day workings of one of England's most powerful institutions at the height of its influence. The accounts list income derived from fees for apprentices and entry fees from fines whose cause is usually given, sometimes with many details from gifts and bequests from property rents and from other sources and then list expenditures on salaries to priests and chaplains, to the beadle, the rent collector and to scribes and scriveners on alms payments on quit rents due on their properties on repairs to properties and on a whole host of other costs differing from year to year and including court cases, special furnishings for the chapel or Hall, negotiations over trade with Burgundy, transport costs, funeral costs or those for attendance at state occasions etc. Included also in some years are ordinances, deeds and other material of which they wanted to ensure a record was kept. Beginning with an early account for 1347-48 and the company's ordinances of that year, the accounts preserved form an entire block from 1390 until 1464. The material is arranged in facing page format with an accurate edition of the original text mirrored by a translation into modern English. A substantial introduction describes the manuscripts in full detail and explains the accounting system used by the Mercers and the financial vocabulary associated with it. Exhaustive name and subject indexes ensure that the material is easily accessible and this edition will become an essential tool for all studying the social, cultural or economic developments
