of the marsh The loss of the marsh fostered a century of flooding in the Kankakee Valley and caused decades of conflict with Illinois which shares the Kankakee River with Indiana To this day there are ongoing attempts to manage flooding on the river and residents of Illinois continue to claim that channelization caused severe environmental problems in their state Serious and lasting environmental problems have proved intractable The citizens of Indiana and their government made profound and irreversible choices about managing a vast wetland and a river within the state s borders The story of the conversion of the Kankakee Marsh to farmland is an object lesson in the manifold problems that arise from the imperatives of unrestrained environmental exploitation Federal Energy Regulatory Commission Reports United States.
