Leonard Bast's Adventure: "Looking for a Real Home"

The title of the
paper is centred.

It is not a controversial statement to say that E.M. Forster's Leonard Bast, the aspiring,

clerk of *Howard's End*, is the least successfully rendered major character

in the novel. As the novel is concerned with the social realities of its day, it would seem

that the failure to convince readers of the reality of Leonard Bast is a serious flaw,

although Forster deserves some credit for making the attempt. Margaret and Helen

Schlegel's efforts to establish a friendship with Leonard Bast despite class barriers is a

parallel action, in the novel, to the author's attempt to include Leonard Bast in the novel

as a serious character on a level with Margaret and Helen. Forster is able to portray

intelligently the problems the Schlegels have in their endeavour and the reasons for the

problems both within Margaret and Helen and within Leonard. But the reader cannot help

but notice that Forster is unable to portray Leonard as anything else than other, again,

paralleling Margaret and Helen's own inability to accept Leonard as more like

themselves than different. Forster's attitude seems fatally divided, yet Leonard Bast's

role in the novel is crucially important. His journey towards death, if studied closely,

throws light on the most fundamental questions the novel explores, "questions about the

way in which reality may be known" (Bradbury 130).

This book explains how to execute this critical task. The chapters focus on strategies and methods for demonstrating the academic library's value through strategic campus partnerships, creation of learning objects such as video tutorials, research instruction designed to facilitate student collaboration and participation in assessment of learning on campus. All of the topics addressed within a broad range of subject matter fall within the scope of learning in the digital age, with particular emphasis on utilizing online learning environments including social media to teach students critical thinking and research skills, as well as to position the academic library as an integral part of the modern learning environment. This book is a must read for academic librarians in instructional roles, teaching faculty, academic library administrators and managers who need to communicate the value of the library in relation to student learning, and academic administrators who are obligated to demonstrate the important role of libraries in academic excellence.
