

Medical Record Documentation

Policy

It is the policy of UTM&B to initiate and maintain a complete and accurate medical record for every individual assessed, cared for, treated, or served. Documentation in the medical record shall be sufficient to identify the patient, support the diagnosis, justify the treatment, document the course and results of treatment, and promote continuity of care among health care providers. Medical record documentation is to be timely, meaningful, authenticated, and legible. All relevant documents and entries should be entered into the medical record at the time the service is rendered. The electronic medical record (EMR) must be used for documentation in all areas where its implementation has been completed.

Every individual documenting in the medical record is responsible for the entire content of his/her documentation, whether the content is original, copied, pasted, imported or reused.
