

USHER Anniversary PROGRAM TEMPLATE

Rev. Dr. Emil Thomas
Preacher Pastor

I am a Gospel preacher and Bible teacher. In 40 years of pastoring I have specialized in spiritual growth, institutional development and community service within the African American Community. I have taken particular joy in mentoring Christians from conversion to service and mentoring preachers from the infancy of their ministry through their education and pastoral careers.

University and School Collaborations during a Pandemic Fernando M. Reimers, Francisco J. Marmolejo, 2021-10-04 Based on twenty case studies of universities worldwide and on a survey administered to leaders in 101 universities this open access book shows that amidst the significant challenges caused by the COVID 19 pandemic universities found ways to engage with schools to support them in sustaining educational opportunity In doing so they generated considerable innovation which reinforced the integration of the research and outreach functions of the university The evidence suggests that universities are indeed open systems in interaction with their environment able to discover changes that can influence them and to change in response to those changes They are also able in the success of their efforts to mitigate the educational impact of the pandemic to create better

futures as the result of the innovations they can generate This challenges the view of universities as ivory towers being isolated from the surrounding environment and detached from local problems As they reached out to schools universities not only generated clear and valuable innovations to sustain educational opportunity and to improve it this process also contributed to transform internal university processes in ways that enhanced their own ability to deliver on the third mission of outreach

Work-Integrated Learning in the 21st Century Tracey Bowen, Maureen Drysdale, 2017-09-11 This book explores new questions about the state of work and work readiness for new university and college graduates in the context of work integrated learning in the 21st century and the role of higher education in preparing students for the challenges of global economic shifts in the labour market

Scientists Making a Difference Robert J. Sternberg, Susan T. Fiske, Donald J. Foss, 2016-08-11 Scientists Making a Difference is a fascinating collection of first person narratives from the top psychological scientists of the modern era These readable essays highlight the most important contributions to theory and research in psychological science show how the greatest psychological scientists formulate and think about their work and illustrate how their ideas develop over time In particular the authors address what they consider their most important scientific contribution how they got the idea how the idea matters for the world beyond academic psychology and what they would like to see as the next steps in research The contributors who were chosen from an objectively compiled list of the most eminent psychological scientists provide a broad range of insightful perspectives This book is essential reading for students researchers and professionals interested in learning about the development of the biggest ideas in modern psychological science described firsthand by the scientists themselves

Life after Foster Care Loring Paul Jones, 2018-08-17 This book apprises readers of the present conditions of former and emancipated foster youth provides evidence based best practices regarding their experiences and proposes new policies for ensuring better outcomes for these children upon discharge from foster care For most American youth the transition to adulthood is gradual and aided by support from parents and others In contrast foster youth are expected to arrive at self sufficiency abruptly and without the same level of support Such an expectation may be due in part to what Loring Paul Jones has found in his research that many of the studies conducted thus far have been fragmented and incomplete often focusing on a particular state or agency that may follow policies not applicable nationwide This book

connects the dots between these disparate studies to provide child welfare practitioners policy makers and students with a broader picture of the state of American youth following discharge from foster care It examines not only child welfare policies but also related policies in areas such as housing and education that may contribute to the success or failure of foster youth in society It additionally draws lessons from successful programs to provide readers with the tools needed to develop foster and after care systems that more closely mirror the support afforded to youth in the general population
