Romanticism and Philosophy Sophie Laniel-Musitelli, Thomas Constantinesco, 2015-05-22 This volume brings together a wide range of scholars to offer new perspectives on the relationship between Romanticism and philosophy The entanglement of Romantic literature with philosophy is increasingly recognized just as Romanticism is increasingly viewed as European and Transatlantic yet few studies combine these coordinates and consider the philosophical significance of distinctly literary questions in British and American Romantic writings The essays in this book are concerned with literary writing as a form of thinking investigating the many ways in which Romantic literature across the Atlantic engages with European thought from 18th and 19th century philosophy to contemporary theory The contributors read Romantic texts both as critical responses to the major debates that have shaped the history of philosophy and as thought experiments in their own right This volume thus examines anew the poetic philosophy of Wordsworth Coleridge Blake Shelley and Clare also extending beyond poetry to consider other literary genres as philosophically significant such as Jane Austen s novels De Quincey s autofiction Edgar Allan Poe s tales or Emerson s essays Grounded in complementary theoretical backgrounds and reading practices the various contributions draw on an impressive array of writers and thinkers and challenge our understanding not only of Romanticism but also of what we have come to think of as literature and philosophy

The Thought of Stanley Cavell and Cinema David LaRocca, 2020-01-23 Stanley Cavell was by many accounts America s greatest philosophical thinker of film Like Bazin in France and Perkins in England Cavell did not just transform the American capacity to take film as a subject for philosophical criticism he had to first invent that legitimacy Part of that effort involved the creation of several key now canonical texts in film studies among them the seminal *The World Viewed* along with *Pursuits of Happiness* and *Contesting Tears* The present collection offers for the first time anywhere a

concerted effort mounted by some of today's most compelling writers on film to take careful account of Cavell's legacy. The contributors think anew about what precisely Cavell contributed, what holds up, what is in need of revision or updating, and how his writing continues to be of vital significance and relevance for any contemporary approach to the philosophy of film.
