Music and Identity in Postcolonial British South-Asian Literature Christin Hoene, 2014-08-27 This book examines the role of music in British South Asian postcolonial literature asking how music relates to the construction of postcolonial identity It focuses on novels that explore the postcolonial condition in India Pakistan and the United Kingdom Vikram Seth's *A Suitable Boy* Amit Chaudhuri's *Afternoon Raag* Suhayl Saadi's *Psychoraag* Hanif Kureishi's *The Buddha of Suburbia* and *The Black Album* and Salman Rushdie's *The Ground Beneath Her Feet* with reference to other texts such as E M Forster's *A Passage to India* and Vikram Seth's *An Equal Music* The analyzed novels feature different kinds of music from Indian classical to non classical traditions and from Western classical music to pop music and rock n roll Music is depicted as a cultural artifact and as a purely aestheticized art form at the same time As a cultural artifact music derives meaning from its socio cultural context of production and serves as a frame of reference to explore postcolonial identities on their own terms As purely aesthetic art music escapes its contextual meaning The transgressive qualities of music render it capable of expressing identities irrespective of origin and politics of location Thereby music in the novels marks a very productive space to imagine the postcolonial nation and to rewrite imperial history to express the cultural hybridity of characters in between nations to analyze the state of the nation and life in the multicultural diaspora of contemporary Great Britain and to explore the ramifications of cultural globalization versus cultural imperialism It will be a useful research and teaching tool for those interested in postcolonial literature music studies cultural studies contemporary literature and South Asian literature

Music and Conflict Transformation Olivier Urbain, 2007-10-24 In 1999 the Israeli conductor Daniel Barenboim and the Palestinian writer Edward Said organised a concert in Weimar in which half the performers were Palestinians and the other half Israelis The performance itself and the rehearsals which preceded it had a lasting effect on all the participants How far can the relationship between music and politics be used to promote a more peaceful world That is the central question which motivates this challenging new work by some of the leading musicians and music scholars of our time Combining theory from experienced academics such as Johan Galtung Cindy Cohen and Karen Abi Ezzi with compelling stories from musicians like Yair Dalal the book also includes an exclusive interview with folk legend Pete Seeger In each instance practical and theoretical perspectives have been combined in order

to explore music's role in conflict transformation. The book is divided into five sections. The first, Frameworks, reflects in depth on the connections between music and peace, while the second, Music and Politics, discusses the impact of music on society. The third section, Healing and Education, offers examples of the transformative power of music in prisons and settings of conflict resolution, while the fourth, Stories from the Field, tells true stories about music's impact in the Middle East and elsewhere. Finally, Reflections encourages the reader to consider a personal evaluation of the work with a view to further explorations of the power of music to promote peace.

Theology, Music, and Modernity Jeremy Begbie, Daniel K L Chua, Markus Rathey, 2021-02-02. Theology Music and Modernity addresses the question how can the study of music contribute to a theological reading of modernity. It has grown out of the conviction that music has often been ignored in narrations of modernity's theological struggles. Featuring contributions from an international team of distinguished theologians, musicologists, and music theorists, the volume shows how music and discourse about music has remarkable powers to bring to light the theological currents that have shaped modern culture. It focuses on the concept of freedom, concentrating on the years 1740-1850, a period when freedom, especially religious and political freedom, became a burning matter of concern in virtually every stratum of Western society. The collection is divided into four sections, each focusing on a key phenomenon of this period: the rise of the concept of revolutionary freedom, the move of music from church to concert hall, the cry for eschatological justice in the work of black hymn writer and church leader Richard Allen, and the often fierce tensions between music and language. There is a particular concern to draw on a distinctively Scriptural imagination, especially the theme of New Creation, in order to elicit the key issues at stake and to suggest constructive ways forward for a contemporary Christian theological engagement with the legacies of modernity today.

Music and Fine Arts in the Devotional Traditions of India Saurabh Goswami, Selina Thielemann, 2005. This book presents a number of independent articles held together by the thematic string of art as part of ritual worship and spiritual striving in traditions of devotional religion in India. Emphasis is laid on music and fine arts in the Vaisnava temples of Vraja, with recurring reference to the art of sanjhi, which counts among the unique and nowadays very rare treasures of the Indian cultural heritage.

Music, Modernity, and God Jeremy Begbie, 2013-11-22. When the story of modernity is told from a theological perspective, music is routinely ignored despite its pervasiveness in modern culture and the manifold ways it has been intertwined with modernity's ambivalent relation to the Christian God. In conversation with musicologists and music theorists, this collection of essays shows that the practices of music and the discourses it has generated bear their own kind of witness to some of the pivotal theological currents and counter currents shaping modernity. Music has been deeply affected by these currents and in some cases may have played a part in generating them. In addition, Jeremy Begbie argues that music is capable of yielding highly effective ways of addressing and moving beyond some of the more intractable theological problems and dilemmas which modernity has bequeathed to us. *Music, Modernity, and God* includes studies of Calvin Luther and Bach, an exposition of

the intriguing tussle between Rousseau and the composer Rameau and an account of the heady exaltation of music to be found in the early German Romantics Particular attention is paid to the complex relations between music and language and the ways in which theology a discipline involving language at its heart can come to terms with practices like music practices which are coherent and meaningful but which in many respects do not operate in language like ways Sociology of music and its cultural implications. Interdisciplinary insights from theoretical debate and field work AA.
