the book you ll find boxes that describe the core skills and sub skills and some have scripted examples of proper usage As a matter of fact every skill that we believe is core to parenting is described in Chapter 1 The rest of the book describes those skills in detail and provides background information Some of the skills are scripted because we ve found that it helps to have the situation in your head before you encounter the situation with your child Every situation will be different but the scripts outline the basic direction of the conversation You may want to use the script as you hone the skill and eventually you ll find your own voice *Creative Parenting Skills* Jennifer L.
