Resources in Education ,1982-04 Language Endangerment and Language Revitalization Tasaku

Tsunoda,2013-02-06 In almost every part of the world minority languages are threatened with extinction At the same time dedicated efforts are being made to document endangered languages to maintain them and even to revive once extinct languages The present volume examines a wide range of issues that concern language endangerment and language revitalization Among other things it is shown that languages may be endangered to different degrees endangerment situations in selected areas of the world are surveyed and definitions of language death and types of language death presented The book also examines causes of language endangerment speech behaviour in a language endangerment situation structural changes in endangered languages as well as types of speakers encountered in a language endangerment situation In addition methods of documentation and of training for linguists are proposed which will enable scholars to play an active role in the documentation of endangered languages and in language revitalization The book presents a comprehensive overview of the field It is clearly written and contains ample references to the relevant literature thus providing useful guidance for further research The author often draws on his own experience of documenting endangered languages and of language revival activities in Australia The volume is of interest to a wide readership including linguists anthropologists sociologists and educators Broadcasting the Faith Michael E. Pohlman,2021-02-02 Broadcasting the Faith tells the riveting story of the American church's embrace of radio in the early decades of the twentieth century By investigating major radio personalities like Walter Maier Aimee Semple McPherson Harry Emerson Fosdick and Charles Fuller this study considers the implications for theology in America when Christianity moved to the airwaves In the heyday of radio religious radio preachers sought to use their programs to counter the secularization of American culture Ultimately however their programs contributed to secularization by accelerating changes already evident in both the conservative and liberal streams of American Christianity To reach a vast American audience radio preachers transformed their sectarian messages into a religion more suitable to the masses thereby altering the very religion it aimed to preserve To make religion accessible to large and diverse audiences radio preachers accommodated their messages in ways suited to the medium of radio Although religious radio preachers set forth to advance the influence of religion in American society their choice to limit theological substance ironically promoted the secularization of the American church Perspectives of Mutual Encounters in South Asian History Jamal Malik,2000 The reciprocal relationship between colonialists and the colonised people of India during the crucial period from 1760 to 1860 provides fascinating study material This edited volume explores cultural colonialism by focussing on the ambivalent processes of reciprocal perceptions **Fiscal Year 1987 Department of Energy Authorization: Basic research programs** United States. Congress. House. Committee on Science and Technology. Subcommittee on Energy Research and Production,1986 *The Scientific Foundation of Neuropsychological Assessment* Elbert Russell,2011-12-12 Neuropsychology is a specialized branch of psychology which focuses on the relationship between the brain and human functions including cognition behaviour and emotion With an emphasis on a

scientific approach which includes analysing quantitative data neuropsychology follows an information processing approach to brain activity using standard assessments to evaluate various mental functions This book examines the standardized battery of tests in neuropsychology with a particular focus on forensic applications of these tests suggesting that a united theory of assessment needs to be established Bringing together multiple articles related to forensic neuropsychology this book offers an exploration of the neurological and psychometric theoretical basis for standardized batteries as well as a comparison between flexible and standardized batteries Ultimately it is argued that a standardized battery of tests need to be used and explains the justification for the reliability of this approach especially in relation to expert witness testimony While doing this formal procedures including advanced mathematical procedures such as formulas and decision tree algorithms are presented to be utilized in assessments With its thorough examination of the theoretical and practical applications of a standardized battery in neuropsychological assessment this book will prove helpful to clinical practitioners and attorneys using assessment for their cases Provides a unified theoretical basis for a standardized neuropsychological assessment battery Shows the justification for using neuropsychological assessment in forensic applications Offers practical examples which can be used to create a standardized assessment battery
