

SOAP Note Template

Subjective – The “history” section

HPI: include symptom dimensions, chronological narrative of patient’s complains, information obtained from other sources (always identify source if not the patient).

Pertinent past medical history.

Pertinent review of systems, for example, “Patient has not had any stiffness or loss of motion of other joints.”

Current medications (list with daily dosages).

Objective – The physical exam and laboratory data section

Vital signs including oxygen saturation when indicated.

Focuses physical exam.

All pertinent labs, x-rays, etc. completed at the visit.

Assessment/Problem List – Your assessment of the patient’s problems

Assessment: A one sentence description of the patient and major problem

Problem list: A numerical list of problems identified

All listed problems need to be supported by findings in subjective and objective areas above. Try to take the assessment of the major problem to the highest level of diagnosis that you can, for example, “low back sprain caused by radiculitis involving left 5th LS nerve root.”

Provide at least 2 differential diagnoses for the major new problem identified in your note.

Plan – Your plan for the patient based on the problems you’ve identified

Develop a diagnostic and treatment plan for each differential diagnosis.

Your diagnostic plan may include tests, procedures, other laboratory studies, consultations, etc.

Your treatment plan should include: patient education, pharmacotherapy if any, other therapeutic procedures. You must also address plans for follow-up (next scheduled visit, etc.).

The Dyer, Calico Printer, Bleacher, Finisher & Textile Review, 1928 **Comprehensive Cervical Cancer Control**, 2006 Most women who die from cervical cancer particularly in developing countries are in the prime of their life They may be raising children caring for their family and contributing to the social and economic life of their town or village Their death is both a personal tragedy and a sad and unnecessary loss to their family and their community Unnecessary because there is compelling evidence as this Guide makes clear that cervical cancer is one of the most preventable and treatable forms of cancer as long as it is detected early and managed effectively Unfortunately the majority of women in developing countries still do not have access to cervical cancer prevention programmes The consequence is that often cervical cancer is not

detected until it is too late to be cured An urgent effort is required if this situation is to be corrected This Guide is intended to help those responsible for providing services aimed at reducing the burden posed by cervical cancer for women communities and health systems It focuses on the knowledge and skills needed by health care providers at different levels of care
