This edition follows Grosset and Dunlap, New York, 1897. Vollständige Neuausgabe. Complete new edition. 1. Auflage. 1st edition.

This theoretical contribution argues that the domination of Western knowledge in disaster scholarship has allowed normative policies and practices of disaster risk reduction to be imposed all over the world. It takes a postcolonial approach to unpack why scholars claim that disasters are social constructs while offering little but theories, concepts, and methods supposed to be universal in understanding the unique and diverse experiences of millions of people across very different cultures. It further challenges forms of governments inherited from the Enlightenment that have been rolled out as standard and ultimate solutions to reduce the risk of disaster. Ultimately, the book encourages the emergence of a more diverse set of world views, senses, and ways of knowing for both studying disasters and informing policy and practice of disaster risk reduction. Such pluralism is essential to better reflect local realities of what disasters actually are around the world. This book is an essential read for scholars and postgraduate students interested in disaster studies as well as policy makers and practitioners of disaster risk reduction.

City Requiem, Calcutta Ananya Roy, 2003. Housing developments emerge amid the paddy fields on the fringes of Calcutta; overflowing trains carry peasant women to informal urban labor markets in a daily commute against hunger; land is settled and claimed in a complex choreography of squatting and evictions. Such Ananya Roy contends are the distinctive spaces of a communism for the new millennium where, at a moment of liberalization, the hegemony of poverty is quietly reproduced. An ethnography of urban development in Calcutta, Roy's book explores the dynamics of class and gender in the persistence of poverty. *City Requiem, Calcutta* emphasizes how gender itself is spatialized and how gender relations are negotiated within the geopolitics of modernity and through the everyday practices of territory. Thus, Roy shows how urban developmentalism in its populist guise reproduces the relations of masculinist patronage and in its entrepreneurial guise seeks to reclaim a bourgeois Calcutta gentlemanly in its nostalgias. In doing so, her work expands the field of poverty studies by showing how a politics of poverty is also a poverty of knowledge, a construction and management of social and spatial categories.
