**The Practical OPNET User Guide for Computer Network Simulation** Adarshpal S. Sethi, Vasil Y.

Hnatyshin, 2012-08-24 One of the first books to provide a comprehensive description of OPNET IT Guru and Modeler software. The Practical OPNET User Guide for Computer Network Simulation explains how to use this software for simulating and modeling computer networks. The included laboratory projects help readers learn different aspects of the software in a hands-on way. Q **Traffic and QoS Management in Wireless Multimedia Networks** Yevgeni Koucheryavy, Giovanni

Giambene, Dirk Staehle, Francisco Barcelo-Arroyo, Torsten Braun, Vasilios Siris, 2009-04-20 The current book provides a final report of activity performed by the COST 290 Action Traffic and QoS Management in Wireless Multimedia Networks which ran from March 10 2004 until June 3 2008. After an introduction to the COST framework and the Action's survey time frame and activities the main part of the book addresses a number of technical issues which are structured into several chapters. All those issues have been carefully investigated by the COST 290 community during the course of the project; the information presented in this book can be regarded as ultimate for each particular topic; every open research issue addressed in the book is described carefully; corresponding existing studies are analyzed and results achieved by the COST 290 community are presented and compared and further research directions are defined and analyzed. Because the book covers a wide area of research addressing issues of modern wired and wireless networking at different layers starting from the physical layer up to the application layer it can be recommended to be used by researchers and students to obtain a comprehensive analysis on particular research topics including related areas to obtain broad and ultimate referencing and to be advised on current open issues. COST 290 is one of the Actions of the European COST Program. Founded in 1971 COST is an intergovernmental framework for European Cooperation in the field of Scientific and Technical Research allowing the coordination of nationally funded research on a European level. **Transport** Department of Transport, Great Britain.
