The Case Against the SAT James Crouse, Dale Trusheim, 1988-03-31 The College Entrance Examination Board and the Educational Testing Service claim that the SAT helps colleges select students helps college bound students select appropriate institutions and furthers equality

of opportunity But does it really Drawing on three national surveys and on hundreds of studies conducted by colleges the authors refute the justifications the College Board and the ETS give for requiring high school students to take the SAT They show that the test neither helps colleges and universities improve their admissions decisions nor helps applicants choose schools at which they will be successful They outline the adverse effect the SAT has on students from nonwhite and low income backgrounds They also question the ability of the College Board and the ETS to monitor themselves adequately The authors do not however recommend abolishing either college admissions testing or the College Board and the ETS Rather they propose dropping the SAT and relying on such already available measures as students high school coursework and grades and they raise the possibility that new achievement tests that measure the mastery of high school courses could be developed to replace the SAT

Inside Graduate Admissions Julie R. Posselt, 2016-01-11 How does graduate admissions work Who does the system work for and who falls through its cracks More people than ever seek graduate degrees but little has been written about who gets in and why Drawing on firsthand observations of admission committees and interviews with faculty in 10 top ranked doctoral programs in the humanities social sciences and natural sciences education professor Julie Posselt pulls back the curtain on a process usually conducted in secret Politicians judges journalists parents and prospective students subject the admissions policies of undergraduate colleges and professional schools to considerable scrutiny with much public debate over appropriate criteria But the question of who gets into Ph D programs has by comparison escaped much discussion That may change with the publication of *Inside Graduate Admissions* While the departments reviewed in the book remain secret the general process used by elite departments would now appear to be more open as a result of Posselt s book Scott Jaschik *Inside Higher Ed* Revealing Provide s clear consistent insights into what admissions committees look for Beryl Lief Benderly Science *Sessional Papers of the Dominion of Canada* Canada.

Parliament, 1888 Report of the Dominion fishery commission on the fisheries of the province of Ontario 1893 issued as vol 26 no 7 supplement *Improving Schools, Developing Inclusion* Mel Ainscow, Tony Booth, Alan Dyson, 2006-09-27 While many

books explore the possibilities for developing inclusive practices in schools and inclusion is widely regarded as a desirable goal much of the literature on the subject has been narrowly concerned with the inclusion of pupils with special educational needs This book however takes the view that marginalisation exclusion and underachievement take many forms and affect

many different kinds of child As such a definition of inclusion should also touch upon issues of equity participation community entitlement compassion respect for diversity and sustainability Here the highly regarded authors focus on barriers to participation and learning experienced by pupils the practices that can overcome these barriers the extent to which such practices facilitate improved learning outcomes how such practices can be encouraged and sustained within schools and LEAs The book is part of the Improving Learning series published in partnership with the Teaching and Learning Research Project

Assessment for Learning and Teaching in Primary Schools Mary Briggs, Angela Woodfield, Peter Swatton, Cynthia Martin, 2008-04-25 This core text for primary trainee teachers is a clear introduction to the different kinds of assessment and their purposes Throughout the book tasks encourage the reader to practise assessment skills and to reflect on planning listening questioning observing diagnosing and target setting This second edition is referenced throughout to the 2007 QTS Standards and has been fully updated to reflect the Primary National Strategy and key initiatives such as Every Child Matters There is increased emphasis on peer assessment and target setting linked to personalised learning In addition new material on Early Years observation and foundation core subjects has been added
