Dual VGA inputs for Optimum Connectivity

Optoma pioneered the use of VGA inputs for both PC and SCART. The unique SCART/VGA adapter enables direct connection of a SCART source to the projector with readily available VGA cabling.

The new EP719 and EP716 projectors have two VGA inputs, allowing simultaneous connection of a PC and a SCART source, providing optimum quality for both inputs. No cable swapping or re-configuration is required. Either source can be directly selected from the remote control, allowing you to stay in charge of your multi-media presentation.

Password Protection for Peace of Mind

With picture quality this good, everyone will want to use the EP719 or EP716. Password protection can prevent unauthorised use of the projector, in addition, a timer mode allows the projector to be loaned out for a fixed time before it is automatically disabled.
