

DEVELOPMENT GOALS

Development goals refer to goals that are focused on improving personal knowledge and skills.

DEFINITION

We often differentiate development goals from performance goals:

- **Development goals:** success is defined as a measure of internal progress and improvement, or how far you've come.
- **Performance goals:** success or failure is measured by whether you reach a clearly-defined target.

EXAMPLES

Productivity: Increase productivity by setting daily, weekly, and monthly goals and utilizing productivity techniques such as the Pomodoro Technique.

Emotional Intelligence: Enhance emotional intelligence by practicing empathy, self-awareness, and effective communication in personal and professional interactions.
