Destination London Andrew Smith,Anne Graham,2019-05-21 London is one of the world s most popular destinations and visitors contribute approximately 14.9 billion of expenditure to the city every year Its tourism and events sectors are growing and over the last few years London has received more visitors than ever before However detailed accounts of the city s visitor economy are conspicuously absent This book analyses how the capital is developing as a destination through the expansion of tourism and events into new urban spaces The book outlines how parts of London not previously regarded as tourist territory are now subject to the visitor gaze with tourism spreading beyond established central zones into peripheral suburban and residential areas in part propelled by a big rise in peer to peer accommodation use Simultaneously London s airports and sports stadiums and their surrounds are becoming destinations in their own right New vantage points have been created allowing tourists to explore the city from above at night time or through tours given by the homeless via the opening up of the River Thames or through the transformation of local parks into eventsapes The book explores these trends and shows how urban destinations expand In doing so it enhances our understanding of London and highlights the growing significance of tourism and events in global cities

Researching Organizations

Matthew Jones,2014-02-17 Although there are plenty of books that discuss the principles the philosophy and the techniques of research in organisations it is much harder to find information on what doing research in organisations actually involves in practice Yet this is often one of the most challenging but also most interesting aspects of a study Drawing on examples and debates from a broad range of disciplines such as criminology education and social anthropology as well management *Researching Organisations* explores the issues that researchers may encounter when carrying out fieldwork in organisations From getting in to an organisation at the start of the research to getting out and maybe back again at the end the book offers systematic guidance to help researchers navigate the messy reality of fieldwork *Researching Organisations* is designed for graduate level researchers who may be undertaking fieldwork for the first time but also for those who wish to gain an

understanding of research practice Handbook of Niche Tourism Novelli, Marina, Cheer, Joseph M., Dolezal, Claudia, Jones, Adam, Milano, Claudio, 2022-09-20 This Handbook provides a critical analysis of the evolution of the contemporary niche tourism phenomenon By framing discussions around sustainable development thinking concepts and practical applications each chapter provides specific reflections on niche tourism trends successes and or failures and the challenges and opportunities that destinations that pursue tourism as a vehicle for sustainable development face around the world

Mental Health Ethics Phil Barker, 2010-11-09 Mental Health Ethics provides an overview of traditional and contemporary ethical perspectives and critically examines a range of ethical and moral challenges present in contemporary psychiatric mental health services **Relationship-based Social Work with Adults** Heidi Dix, Sue Hollinrake, Jennifer

Meade, 2025-02-28 There has been a resurgent interest in relationship based practice and the Care Act 2014 recognises the significance of effective working relationships with service users and carers to ensure a person centred approach and effective participation and co production The Care Act advocates a strengths based whole family approach to assessment care and support planning Relationship putting the person at the centre of the process lies at the heart of this approach This book is a practice based exploration of relationship based practice for social work with adults that looks at underpinning theory legislation and policy drivers value perspectives and skills in practice The first part of the book introduces relationship based practice and theoretical concepts such as psycho social and psycho dynamically informed approaches to practice which highlight the complexities of relationships at conscious and unconscious levels both from the service user carer perspective and the professional s perspective where reflection and use of self are key it critically explores the legislation and policy context A conceptual model called IDEAS is introduced which provides a framework for the second part of the book by breaking down the discussion into relevant practice issues Here theory skills and values are applied through case examples to illustrate the efficacy of relationship based practice across a range of practice settings in social work with adult service users and carers *Learning-Through-Touring* Juliet Sprake, 2012-03-26 Learning through Touring uncovers ways in which

people interact with the built environment by exploring the spaces around between and within buildings The key idea embodied in the book is that learning through touring is haptic the learner is a physical cognitive and emotional participant in the process It also develops the concept that tours rather than being finished products are designed to evolve through user participation and over time Part One of the book presents a series of analytical investigations into theories and practices of learning and touring that have then been developed to produce a set of conceptual methods for tour design Projects that have tried and tested these methods are described in Part Two Technologies that have been utilised as portable tools for learning through touring are illustrated both through historical and contemporary practices In all of this there is an underlying belief that what is formally presented to us by authorities is open to self discovery questioning and independent enquiry The book is particularly relevant for those seeking innovative ways to explore and engage with the built environment

mobile learning educators learning departments in museums galleries and historic buildings organisations involved in bridging the gap between architecture and public understanding and anyone who enjoys finding out new things about their environment

Down, Dirty and Divine Stephanie Clarke, 2012-08-16 Down Dirty and Divine is an invitation to readers to go on a meaningful and transformational journey through the underground of London and to assist in healing the City whilst also cleansing their own soul and the soul of the planet. Murder and madness, death and disease, crime and corruption, pain and punishment, ghouls and ghosts: this is London's morbid history. But it is humanity's history too. Rev Stephanie Clarke answers the question: how can we heal? Selecting 12 London Underground Tube Stations as the physical and spiritual entry points into the City's underbelly, she offers readers some historical information, some personal reflection and an affirmative prayer to heal the particular trauma associated with the site of each Tube Station. In a dream state, the author was told that the 2012 Olympic Games would stimulate an unprecedented convergence of the masses upon the City of London and would be a powerful catalyst to usher in global transformation. Serendipitously, many of London's great citizens, including Sir Christopher Wren, the architect of St Paul's Cathedral, have long held the vision of London as the New Jerusalem, a celestial city of light and a universal centre of peace and reconciliation. Down Dirty and Divine is a spiritual tour guide, inviting readers to be active instruments in the fulfillment of this grand planetary vision in 2012 and beyond.

H.G. Wells and the Twenty-First Century Bill Cooke, 2023-09-15 H.G. Wells has been branded as a novelist who betrayed his vocation. But Wells saw himself as what we would today call a public intellectual. How credible is this claim? And what happens when we look at him in this way? So typecast has Wells's reputation become that neither of these questions has been previously asked, but when we look at Wells as a thinker, we find a whole new quality to his later works, which have invariably been dismissed by literary scholars as of low quality or even not worth reading. In particular, Wells's prescience as a prophet of our current environmental problems stands out. For example, he foresaw anthropogenic climate change as early as 1931. Popular conceptions of Wells as racist, imperialist and eugenicist are also challenged. What emerges is a new perspective on a significant public intellectual and pioneering prophet of the twenty-first century.

State-led Privatisation and the Demise of the Democratic State Mike Raco, 2016-04-01 For decades now we have been told that we are living through a governance revolution. Gone are the days when government agencies and bureaucrats told us what to do and how to do it. We are no longer clients of the state but empowered citizens who are able to take greater control over our own lives and the activities of those who govern in our name. Across the world, the prevailing narrative has become one of Good Governance, devolution, liberation and freedom of expression. In policy fields as diverse as development, planning, healthcare and public transport, a neo-pluralist rhetoric has emerged based on the principles of co-production and partnership working. And yet at the same time, a curious paradox is emerging. Whilst the prevailing zeitgeist is one of openness and citizen empowerment, this book will show that in reality, new modes of governance are emerging in which state controls have actually been expanded into many spheres of life that were

previously left unregulated For some a new political economy of regulatory capitalism has emerged and this in turn has ushered in unprecedented forms of state led privatisation under which democratically elected politicians have voluntarily handed over their powers responsibilities and resources to new corporate elites who promise to deliver services in more efficient and equitable ways As the discussion will show in reality the rhetoric of Good Governance has therefore been used to legitimate the wholesale transfer of welfare assets and services beyond the democratic control of state actors and the citizens that they represent Privatisation has become a new utopianism that involves a revolution in ways of thinking about democracy governance and urban management the implications of which will be felt by current and future generations
