different elements and concepts which underpin how the planning system works and which are fundamental to the operation of the UK system It also provides good guidance on further reading A real asset to anyone wanting to understand the nature of planning in the UK Dr Catherine Hammond Architecture and Planning Sheffield Hallam University Key Concepts in Planning forms part of an innovative set of companion texts for the human geography sub disciplines Organized around 19 short essays the book provides a cutting edge introduction to the central concepts that define contemporary research in planning Involving detailed and expansive discussions the text includes An introductory chapter providing a succinct overview of the recent developments in the field 18 key concept entries with comprehensive explanations definitions and evolutions of the subject Detailed suggested further reading for each concept discussed It is an ideal companion text for upper level undergraduate and postgraduate students in planning and covers the expected staples of the discipline in an accessible style

Town and Country Planning in the UK Barry Cullingworth, Simin Davoudi, David Webb, Geoff Vigar, John Pendlebury, Tim Townshend, Menelaos Gkartzios, Trevor Hart, Vincent Nadin, 2024-08-30 Town and Country Planning in the UK provides one of the most authoritative and comprehensive accounts of British planning history institutions legislation policies processes and practices This 16th edition has been substantially revised and re organised to provide an up to date overview of the planning systems in the four nations of the UK supported by analyses interpretations illustrations and examples from planning practice The new edition features details of the legislative and policy changes since 2015 and discussion of their implications including the early stages of the Levelling Up and Regeneration Act 2023 discussion of environmental policies and programmes and the impact of Brexit on environmental regulatory landscape in Britain changes to climate change and resilience policies notably the government's Net Zero agenda and their implications for planning updates to the substantive issues in plan making especially the responses to the shortage of affordable housing and the development of major infrastructure changes to the processes involved in plan making and development management an expanded and revised chapter on design to include the growing significance of public health in the built environment major revisions to the chapter on rural planning revisions of the text on planning theory especially in relation to management of conflicts over the use and development of land extended discussion of politics professionalism and participation in planning The 16th edition of Town and Country Planning in the UK is an ideal starting point for those who are studying or working in the planning field and for other professionals who need to locate their work in the planning context

Sustainable Brownfield Regeneration Tim Dixon, Mike Raco, Philip Catney, David N. Lerner, 2008-04-15 Sustainable Brownfield Regeneration presents a comprehensive account of UK policies processes and practices in brownfield regeneration and takes an integrated and theoretically grounded approach to highlight best practice Brownfield regeneration has become a major policy driver in developed countries It is estimated that there are 64 000 hectares of brownfield land in England much of which presents severe environmental challenges and lies alongside some of the most deprived communities in the country

Bringing such land back into active use has taken on a new urgency among policymakers developers and other stakeholders in the development process Frequently however policy thinking and practice has been underpinned by silo mentalities in which integrated and multidisciplinary approaches to problem solving have been limited The book has two principal aims The first is to examine the ways in which science and social science research disciplines can be brought together to help solve important brownfield regeneration issues with a focus on the UK The second is to assess the efficiency and effectiveness of different types of regeneration policy and practice and to show how liveable spaces can be produced from problem places The Thames Gateway in the south of England and Greater Manchester in the North of England are shown as examples of how brownfield regeneration projects are developing in an era where sustainability is high on the policy agenda From the Foreword by Paul Syms National Brownfield Advisor English Partnerships Ensuring the effective and efficient reuse of brownfield land is an essential part of the British Government's land use policies in support of sustainable communities This book recognises that reusing brownfield land is not just about overcoming technical issues to remove contamination or other physical problems with the ground It highlights the importance of engaging with the many different stakeholders whose opinions and concerns need to be taken into account if sustainable outcomes are to be achieved The authors also recognise that brownfield land reuse is not just about building new homes or places of employment the creation of new green spaces can be just as important

Barker Review of Land Use Planning Kate Barker, Great Britain: H.M. Treasury, 2006-12-05

This report is one of a series of reviews commissioned by the Chancellor of the Exchequer to accompany the pre Budget report 2006 to be published 6 December 2006 Cm 6984 ISBN 0101698429 It sets out recommendations to reform the planning system in England in support of sustainable economic growth and prosperity whilst securing delivery of wider objectives including promoting community involvement supporting local democracy and enhancing the environment Key issues identified include the need to ensure the planning system is more responsive to the market whilst delivering sustainable development to ensure the appropriate use of land and to better manage the growing demand for development land to streamline the planning system to increase certainty reduce complexity and costs to enhance the speed and quality of local authority decision making and to improve the appeals system to reduce delays Recommendations include the introduction of a new system for dealing with major infrastructure projects based around national Statements of Strategic Objectives and with a new independent Planning Commission to determine applications the promotion of a positive planning culture within the plan led system so that applications should be approved unless there is good reason to believe that the environmental social or economic costs will exceed respective benefits encouraging planning bodies to review their green belt boundaries to promote sustainable new development beyond towns and cities and removal of the need for minor commercial developments that have little wider impact to require planning permission
