Friesen,2020-01-29 The movement of millions of settlers to Siberia in the late nineteenth and early twentieth centuries marked one of the most ambitious undertakings pursued by the tsarist state *Colonizing Russia's Promised Land* examines how Russian Orthodoxy acted as a basic building block for constructing Russian settler communities in current day southern Siberia and northern Kazakhstan Russian state officials aspired to lay claim to land that was politically under their authority but remained culturally unfamiliar By exploring the formation and evolution of Omsk diocese a settlement mission *Colonizing Russia's Promised Land* reveals how the migration of settlers expanded the role of Orthodoxy as a cultural force in transforming Russia's imperial periphery by russifying the land and marginalizing the Indigenous Kazakh population In the first study exploring the role of Orthodoxy in settler colonialism Aileen Friesen shows how settlers clergymen and state officials viewed the recreation of Orthodox parish life as practised in European Russia as fundamental to the establishment of settler communities and to the success of colonization Friesen uniquely gives peasant settlers a voice in this discussion as they expressed their religious aspirations and fears to priests and tsarist officials Despite this agreement tensions existed not only among settlers but also within the Orthodox Church as these groups struggled to define what constituted the Russian Orthodox faith and culture *The Russian Far East and Pacific Asia* M. J. Bradshaw,2013-07-04 This major study assesses prospects for economic recovery in the Russian Far East evaluating foreign trade and investment political and economic forces patterns of resource supply and needs in Pacific Asia and potential competitors It concludes that this unfulfilled potential has as much to do with conditions in Russia as the downturn caused by the Asian crisis **Russia's Turn to the East** Helge Blakkisrud,Elana Wilson Rowe,2017-12-29 This book is open access under a CC BY license This book explores if and how Russian policies towards the Far East region of the country and East Asia more broadly have changed since the onset of the Ukraine crisis and Russia's annexation of Crimea Following the 2014 annexation and the subsequent enactment of a sanctions regime against the country the Kremlin has emphasized the eastern vector in its external relations But to what extent has Russia's pivot to the East intensified or changed in nature domestically and internationally since the onset of the current crisis in relations with the West Rather than taking the declared pivot as a fact and exploring the consequences of it

the contributors to this volume explore whether a pivot has indeed happened or if what we see today is the continuation of longer duration trends concerns and ambitions
