We are being poisoned, and this book is sounding a well-informed alarm. Read it, get educated, and then join the thousands rising up against those who care more for profit than the health of our bodies and our earth. Eve Ensler, New York Times bestselling author. Chemical poisons have infiltrated all facets of our lives: housing, agriculture, work places, sidewalks, subways, schools, parks, even the air we breathe. More than half a century since Rachel Carson issued *Silent Spring*, her call to arms against the poisoning of our drinking water, food, animals, air, and the natural environment, *The Fight Against Monsanto's Roundup* takes a fresh look at the politics underlying the mass use of pesticides and the challenges people around the world are making against the purveyors of poison and the governments that enable them. The scientists and activists contributing to *The Fight Against Monsanto's Roundup*, edited by long-time Green activist Mitchel Cohen, explore not only the dangers of glyphosate, better known as Roundup, but the campaign resulting in glyphosate being declared a probable cancer-causing agent. In an

age where banned pesticides are simply replaced with newer and more deadly ones and where corporations such as Monsanto Bayer Dow and DuPont scuttle attempts to regulate the products they manufacture what is the effective practical and philosophical framework for banning glyphosate and other pesticides The Fight Against Monsanto's Roundup The Politics of Pesticides takes lessons from activists who have come before and offers a radical approach that is essential for defending life on this planet and creating for our kids and for ourselves a future worth living in **Backpacker**, 2007-09 Backpacker brings the outdoors straight to the reader's doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world's first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker's Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured **Engineered Nanoparticles and the Environment** Baoshan Xing, Chad D.
