The draft Local Transport Bill and the Transport Innovation Fund Great Britain: Parliament: House of Commons: Transport Committee,2007-08-03 Incorporating HCP 564 i session 2006 07 **Selectivity in State Aid Law and the Methods for the Allocation of the Corporate Tax Base** Jérôme Monsenego,2018-06-05 High profile cases before the European Commission and the EU courts have intensified scrutiny of the link between State aid law and the taxation of multinational enterprises Certain decisions have raised questions about fiscal sovereignty and the interpretation of the rules on State aid in particular the notion of selectivity which have not been addressed in detail by existing research The combination of the evolution of the notion of selectivity in State aid law on the one hand and the need to adapt the rules for the taxation of the profits of multinational enterprises to the modern economy on the other hand makes it necessary to assess

whether existing as well as alternative rules for the allocation of the corporate tax base might entail a selective treatment This book responds to the need of research in the area of State aid law applied to the taxation of the income of multinational enterprises focusing on the crucial concept of selectivity The analysis proceeds with a detailed investigation of the theoretical issues that arise when applying the selectivity test in State aid law to three methods for the allocation of the corporate tax base between the members of multinational enterprises the arm's length principle transfer pricing safe harbours and systems of formula apportionment This research project is conducted at a theoretical level without considering national provisions or particular tax treaties The author suggests an analytical framework on the application of the selectivity test to the three allocation methods It is concluded that these methods are likely to have certain selective features with varying possibilities to be justified by the inner logic of a corporate income tax system It is also demonstrated that selectivity occurs for different reasons due to the different rationales of the three allocation methods This book is intended at contributing to the academic literature on the impact of State aid law on the principles for the taxation of the income of multinational enterprises The outcome of this research project is also relevant for lawmakers who need to reconcile the imperatives of State aid law with the design of rules that match their tax policies as well as for judges or lawyers who apply the rules on State aid to tax provisions *Princeton Review GED Test Prep, 2023* The Princeton Review, 2022-08-09 Make sure you're studying with the most up to date prep materials Look for the newest edition of this title The Princeton Review GED Test Prep 2024 ISBN 9780593516973 on sale June 2023 Publisher's Note Products purchased from third party sellers are not guaranteed by the publisher for quality or authenticity and may not include access to online tests or materials included with the original product
