Optimized Cloud Resource Management And Scheduling Theories And Practices:

Optimized Cloud Resource Management and Scheduling Wenhong Dr. Tian,Yong Dr. Zhao,2014-10-15 Optimized Cloud Resource Management and Scheduling identifies research directions and technologies that will facilitate efficient management and scheduling of computing resources in cloud data centers supporting scientific industrial business and consumer applications It serves as a valuable reference for systems architects practitioners developers researchers and graduate level students Explains how to optimally model and schedule computing resources in cloud computing Provides in depth quality analysis of different load balance and energy efficient scheduling algorithms for cloud data centers and Hadoop clusters Introduces real world applications including business scientific and related case studies Discusses different cloud platforms with real test bed and simulation tools

Autonomic Computing in Cloud Resource Management in Industry 4.0 Tanupriya Choudhury,Bhupesh Kumar Dewangan,Ravi Tomar,Bhupesh Kumar Singh,Teoh Teik Toe,Nguyen Gia Nhu,2021-08-04 This book describes the next generation of industry Industry 4 0 and how it holds the promise of increased flexibility in manufacturing along with automation better quality and improved productivity The authors discuss how it thus enables companies to cope with the challenges of producing increasingly individualized products with a short lead time to market and higher quality The authors posit that intelligent cloud services and resource sharing play an important role in Industry 4 0 anticipated Fourth Industrial Revolution This book serves the different issues and challenges in cloud resource management CRM techniques with proper propped solution for IT organizations The book features chapters based on the characteristics of autonomic computing with its applicability in CRM Each chapter features the techniques and analysis of each mechanism to make better resource management in cloud

JRI 2021 Abdoulaye Sere,Borlli Michel Jonas Some ,Marie Yves Théodore Tapsoba ,Oumarou Sie,2021-11-11 This book constitutes the proceedings of the 4th edition of the Computer Science Research Days on contributions of computer science research and digital innovations for the benefit of endogenous development for a Burkina Faso emerging JRI 2021 held Virtually and presently on November 11 13 2021 This event organized by the non profit association RECIF <https://recifaso.org> aims to provide a platform for scientifics students developers and practitioners in digital research and innovations to present learn and discuss on endogenous development The technical program of JRI 2021 consisted of eight 8 full accepted papers that were carefully reviewed and selected from twenty 20 initial submitted papers and keynote speeches The presentations focused on multiple research fields like Computer Science Artificial Intelligence Image processing Sensor network and Big data analytics followed by discussions in round table on strengthening collaboration in digital research and how to shape digital research for societal needs This conference hoped to narrow the gap between practitioners civil society and technical experts to work on applications of digital research for sustainable development

Computational Intelligence for Information Retrieval Dharmender Saini,Gopal Chaudhary,Vedika Gupta,2021-12-14 This book provides a thorough understanding of the integration of computational

intelligence with information retrieval including content based image retrieval using intelligent techniques hybrid computational intelligence for pattern recognition intelligent innovative systems and protecting and analysing big data on cloud platforms The book aims to investigate how computational intelligence frameworks are going to improve information retrieval systems The emerging and promising state of the art of human computer interaction is the motivation behind this book The book covers a wide range of topics starting from the tools and languages of artificial intelligence to its philosophical implications and thus provides a plethora of theoretical as well as experimental research along with surveys and impact studies Further the book aims to showcase the basics of information retrieval and computational intelligence for beginners as well as their integration and challenge discussions for existing practitioners including using hybrid application of augmented reality computational intelligence techniques for recommendation systems in big data and a fuzzy based approach for characterization and identification of sentiments

IoT and AI Technologies for Sustainable Living Abid

Hussain, Garima Tyagi, Sheng-Lung Peng, 2022-10-18 This book brings together all the latest methodologies tools and techniques related to the Internet of Things and Artificial Intelligence in a single volume to build insight into their use in sustainable living The areas of application include agriculture smart farming healthcare bioinformatics self diagnosis systems body sensor networks multimedia mining and multimedia in forensics and security This book provides a comprehensive discussion of modeling and implementation in water resource optimization recognizing pest patterns traffic scheduling web mining cyber security and cyber forensics It will help develop an understanding of the need for AI and IoT to have a sustainable era of human living The tools covered include genetic algorithms cloud computing water resource management web mining machine learning block chaining learning algorithms sentimental analysis and Natural Language Processing NLP IoT and AI Technologies for Sustainable Living A Practical Handbook will be a valuable source of knowledge for researchers engineers practitioners and graduate and doctoral students working in the field of cloud computing It will also be useful for faculty members of graduate schools and universities
