How might the people be feeling about their chosen activity?

Both pictures ¹ people outside, standing on the top of a hill. The pictures are ² because they both show young people out walking during the day. Another ³ is that they are all wearing practical clothes like jeans, shorts and boots that are suitable for hill walking. In both pictures, the weather looks dry, although there are some clouds in the sky. One of the main ⁴ is that the first picture shows a group, while in the second one there's a girl alone. In the first picture, you can't see the people's faces, ⁵ in the second one you can see the girl's expression. The people in the group seem to be enjoying themselves. They have their hands up in the air, as if they are ⁶. Perhaps they have a sense of ⁷ after climbing up the hill. But in the second picture, the girl seems more tense. She could be feeling ⁸ about getting lost. Perhaps she doesn't have a very good sense of ⁹. I'd say that the group in the first picture are definitely having a ¹⁰ time than the girl.

Read the question. How could you compare these pictures?

Why do you think these people have chosen to do these activities?

Record yourself answering the question in Ex 4. Time yourself and try to speak for one minute.
