Crouse,1986-11-21 Years before the Dust Bowl exodus raised America's conscience to the plight of its migratory citizenry an estimated one to two million homeless unemployed Americans were traversing the country searching for permanent community Often mistaken for bums tramps hoboes or migratory laborers these transients were a new breed of educated highly employable men and women uprooted from their middle and working class homes by an unprecedented economic crisis The Homeless Transient in the Great Depression investigates this population and the problems they faced in an America caught between a poor law past and a social welfare future The story of the transient is told from the perspective of the federal state and local governments and from the viewpoint of the social worker the community and the transient In narrowing the focus of the study from the national to the state level Joan Crouse offers a close and sensitive examination of each The choice of New York as a focal point provides an important balance to previous literature on migrancy by shifting attention from the Southwest to the Northeast and from a preoccupation with rejection on the federal level to the concerted effort of the state to deal with the non resident poor in a humane yet fiscally responsible manner
