

Teaching World Languages: A Practical Guide

Chapter 1: Essential Concepts

Learning a language is not the same as learning *about* a language. Learning a language means becoming able to use it to comprehend, communicate, and think, as we do in our first language. Teaching a language means being able to guide students in their journey to comprehend, communicate, and think in another language. This section aims to introduce you to the philosophy that underlies language-teaching practice in the United States today.
