Clash Cengiz Topel Mermer, 2022-11-01 India founded as a result of the United Kingdom's withdrawal from the Indian Subcontinent in 1947 and the People's Republic of China PRC established by the leadership of the victor Mao of Chinese civil war in 1949 were forced to face the fact that borders between India and PRC in the Himalayas were not demarcated As India took over the British heritage in the area border problems that had been pushed into the background due to conjunctural developments resurfaced Having embraced the idea of ancient China by Mao's PRC a hard to overcome psychological barrier was created between two countries led to a vortex of crises stemming from the border dispute PRC and India fought in 1962 because of this problem and had a limited armed conflict in 1967 After a small scale armed conflict in 1975 two nuclear weapons states proceeded to mitigate risks of unintended small scale armed conflicts or crises turning into a full scale war Within this framework due to protocols signed in accordance with parleys started in the 1980s neither firearms nor bladed

articles were used during the border crises since 1975 to this day and there were no casualties until June 15 2020 Galwan Valley unique clash Diplomatic negotiations held after this clash did not provide a road map to end the crisis Normalization in Galwan Valley could only be achieved through the mid of February 2021 with the help of global developments Although troops were withdrawn from the disputed parts of Galwan Valley parties could not come to an agreement on other regions As the snow melted the armies of both countries reinforced their borders After the 2020 clash in spite of messaging each other through media proxies and allies both countries did not budge from their claims on borders There are no implications of change on both parties classical discourse and strategical objectives On the contrary both countries are even more honed against each other The Himalayas the hot front of the new cold war is still a conflict zone The biggest impediment to a new crisis in this region is the coronavirus pandemic As the regional and global competition of two emerging countries continue the PRC seems to be getting the upper hand by tackling the coronavirus pandemic and impelling its economy By acquiring Russian Federation s support the PRC has been challenging QUAD alliance on several fronts and India in the Himalayas as well Nevertheless the hurricanes of tides that will face the PRC after the pandemic are still being sown both by the West and QUAD alliance The border dispute between the PRC and India is the most heated front of the cold war whose groundwork has been laid and probably in the following period the first spark will be lit in the Himalayas

Maoism in India Bidyut Chakrabarty,Rajat Kumar Kujur,2009-12-04 The rise of Maoism as one of the organized political movement in India is the outcome of a historical situation Both colonialism and the failure of the Indian state to implement land reforms more stringently in the aftermath of independence resulted in terrible sufferings of the marginalized land dependent sections of society Through historical analysis this book assesses the ideological articulation of the contemporary ultra left movement in India including Maoism which is expanding gradually in India The author provides answers to the following issues Is Maoism reflective of the growing disenchantment of the people in the affected areas with the state Is it a comment on the distorted development planning pursued by the Indian state Is this an outcome of the processes of deepening of democracy in India Using Orissa as a case study the book raises questions on India s development strategy The author argues that Maoism provides critical inputs for an alternative paradigm for development relevant for transitional societies and that it is a still a powerful ideology for the poorer parts of the world although its ideological appeal has declined internationally

Mark Tully, 2012-02-29 Since the Indian economy was liberated from bureaucratic socialist controls in 1991 it has developed rapidly A country once renowned for the backwardness of its industries its commerce and its financial market is now viewed as potentially one of the major world economies of the twenty first century But there are many questions which need to be asked about the sustainability of this rapid economic growth and its effect on the stability of the country Have the changes had any impact on the poor and marginalised Can India's democracy contain the mounting resentment of those left out of the new economic order Can a high growth rate be sustained with India's notoriously corrupt and inefficient governance Can the development of its creaking infrastructure be speeded up How is India going to feed itself unless agriculture is reformed This timely book will answer these questions through interviews with industrialists and cricketers God men and farmers plutocrats and former untouchables Full of fascinating stories of real people at a time of great change it will be of interest to economists business people diplomats politicians as well as to those who love to travel and who take an interest in the rapid growth of one of the world's largest countries and what this means to us in the West

Non-Stop India Mark Tully, 2011-10
Non Stop India By Mark Tully Jagaar can loosely be translated as muddling through or making do This is undoubtedly a valuable talent and has seen India through numerous crises which could have destabilised a country that is less adaptable four wars for example But while Jagaar can be seen to have served India well in the past it has a downside It has led to a dangerous complacency the belief that as India has muddled through so many times before there is no need for urgency in tackling the problems it faces In Non Stop India veteran journalist Mark Tully draws on his unmatched knowledge of India

garnered from thirty years of living in and reporting from the country to examine how this approach impacts on her much touted prospects of becoming an economic super power From Maoist conflicts to huge industrial houses from the Tiger project to farmer suicides from the Ramayana to the remote valleys of the north east Tully examines India's myriad negotiations with modernity and her prospects for the next century and beyond Today India is likely to become one of the major economies of the twenty first century But many unresolved questions remain about the sustainability of such growth and its effect on the stability of the nation Veteran journalist Mark Tully draws on thirty years of reporting India and travels the length and breadth of the country to find the answers Have the changes had any impact on the poor and marginalised How can the development of the country's creaking infrastructure be speeded up to match its huge advances in technology and industry With a gift for finding the human stories behind the headlines he looks at the pressing concerns in different areas of life such as governance business spirituality and ecology In revealing interviews with captains of industry and subsistence farmers politicians and Dalits spiritual leaders and bandits Mark Tully captures the voices of the nation From the survival of India's languages and the protection of wildlife to the nation's thriving industries and colourful public affairs Non Stop India is a testament to India's vibrant history and incredible potential offering an unforgettable portrait of this emerging superpower at a pivotal moment of its history About The Author Sir Mark Tully was born in Calcutta India in 1935 He was the Chief of Bureau BBC New Delhi for twenty two years was knighted in the New Year's Honours list in 2002 and was awarded the Padma Bhushan in 2005 Today his distinguished broadcasting career includes being the regular presenter of the contemplative BBC Radio 4 programme Something Understood His books include No Full Stops in India The Heart of India India in Slow Motion with his partner and colleague Gillian Wright and India's Unending Journey He lives in New Delhi
