Refugees And The Myth Of Human Rights:

Refugees and the Myth of Human Rights Dr Emma Larking, 2014-12-28 Most Western liberal democracies are parties to the United Nations Refugees Convention and all are committed to the recognition of basic human rights but they also spend billions fortifying their borders detaining unauthorised immigrants and policing migration Meanwhile public debate over the West's obligations to unauthorised immigrants is passionate vitriolic and divisive Refugees and the Myth of Human Rights combines philosophical historical and legal analysis to clarify the key concepts at stake in the debate and to demonstrate the threat posed by contemporary border regimes to rights protection and the rule of law within liberal democracies Using the political philosophy of John Locke and Immanuel Kant the book highlights the tension in liberalism between partiality towards one's compatriots and the universalism of human rights and brings this tension to life through an examination of Hannah Arendt's account of the rise and decline of the modern nation state It provides a novel reading of Arendt's critique of human rights and her concept of the right to have rights The book argues that the right to have rights must be secured globally in limited form but that recognition of its significance should spur expansive changes to border policy within and between liberal states

The Rights of Refugees under International Law James C. Hathaway, 2005-09-15 This book presents the first comprehensive analysis of the human rights of refugees as set by the UN Refugee Convention In an era where States are increasingly challenging the logic of simply assimilating refugees to their own citizens questions are now being raised about whether refugees should be allowed to enjoy freedom of movement to work to access public welfare programs or to be reunited with family members Doubts have been expressed about the propriety of exempting refugees from visa and other immigration rules and whether there is a duty to admit refugees at all Hathaway links the standards of the UN Refugee Convention to key norms of international human rights law and applies his analysis to the world's most difficult protection challenges This is a critical resource for advocates judges and policymakers It will also be a pioneering scholarly work for graduate students of international and human rights law

The EU-Turkey Statement on Refugees Hülya Kaya, 2020-06-26 This thought provoking book critically analyses how the implementation of the EU Turkey Statement on Refugees affects the rights of refugees and asylum seekers Bringing together an in depth examination of both EU and Turkish law and fieldwork data within a theoretical human rights framework Hülya Kaya discusses the operational realities and failures of the agreement between Turkey and the EU from a socio legal perspective

Human Rights and the Protection of Refugees Under International Law John P. Humphrey, Canadian Human Rights Foundation, 1988 The Nature of the Problem

Refugees and the Myth of Human Rights Dr Emma Larking, 2014-12-28 Most Western liberal democracies are parties to the United Nations Refugees Convention and all are committed to the recognition of basic human rights but they also spend billions fortifying their borders detaining unauthorised immigrants and policing migration Meanwhile public debate over the West's obligations to unauthorised immigrants is passionate vitriolic and divisive Refugees

and the Myth of Human Rights combines philosophical historical and legal analysis to clarify the key concepts at stake in the debate and to demonstrate the threat posed by contemporary border regimes to rights protection and the rule of law within liberal democracies Contemporary Issues in Refugee Law Satvinder Singh Juss, Colin Harvey, 2013-01-01 Refugee law is going through momentous times as dictatorships tumble revolutions simmer and the Arab Awakening gives way to the spread of terror from Syria to the Sahel in Africa This compilation of topical chapters by some of the leading scholars in the field covers major themes of rights security the UNHCR international humanitarianism and state interests and sets out to map new contours The concerns over our security are replacing humanitarian concerns over the plight of others Securitization exclusion and the internal relocation of genuine refugees are now the favoured policies Yet while central idioms of protection persecution and non refoulement have changed there are also new demands on refugee law The contributors to this book ask whether there are new spheres of protection emerging for which refugee law must find a clear space such as the protection of child refugees trafficked persons gender related asylum and conscientious objectors to military service This timely and valuable book shows that in these uncertain times refugee law still has an exciting and challenging future ahead

Contemporary Issues in Refugee Law will appeal to academics researchers students and practitioners Environmental Protection and Human Rights Donald K. Anton, Dinah L. Shelton, 2011-04-11 With unique scholarly analysis and practical discussion this book provides a comprehensive introduction to the relationship between environmental protection and human rights being formalized into law in many legal systems This book instructs on environmental techniques and procedures that assist in the protection of human rights The text provides cogent guidance on a growing international jurisprudence on the promotion and protection of human rights in relation to the environment that has been developed by international and regional human rights bodies and tribunals It explores a rich body of case law that continues to develop within states on the environmental dimension of the rights to life to health and to public participation and access to information Five compelling contemporary case studies are included that implicate human rights and the environment ranging from large dam projects to the creation of a new human right to a clean environment Refugee Solutions in the Age of Global Crisis David K. Androff, 2022 Refugee Solutions in the Age of Global Crisis tackles the world's three main policies for addressing refugee crises voluntary repatriation local integration and third country resettlement These policies were set up by the UN in the aftermath of World War II and they have not been updated since In fact they have been slowly breaking down Using detailed contemporary case studies this book analyzes these policies from a social work perspective with special attention to human rights integration and sustainable development **Museums, the Media and Refugees** Katherine Goodnow, Jack Lohman, Philip Marfleet, 2008-03-01 Across countries and time asylum seekers and refugees have been represented in a variety of ways In some representations they appear negatively as dangers threatening to overrun a country or a region with floods of incompatible strangers In others the same people are portrayed positively with compassion and pictured as

desperately in need of assistance How these competing perceptions are received has significant consequences for determining public policy human rights international agreements and the realization of cultural diversity and so it is imperative to understand how these images are perpetuated To this end this volume reflects on museum practice and the contexts stories and images of asylum seekers and refugees prevalent in our mass media Based on case studies from Australia New Zealand and the United Kingdom the overall findings are illustrative of narratives and images common to museums and the media throughout the world They aim to challenge political rhetoric and populist media imagery and consider what forms of dissent are likely to be sustained and what narratives ultimately break through and can lead to empathy and positive political change

Climate Change, Migration and Human Rights Dimitra Manou, Andrew Baldwin, Dug Cubie, Anja Mihr, Teresa Thorp, 2017-05-12 Climate Change already having serious impacts on the lives of millions of people across the world These impacts are not only ecological but also social economic and legal Among the most significant of such impacts is climate change induced migration The implications of this on human rights raise pressing questions which require serious scholarly reflection Drawing together experts in this field Climate Change Migration and Human Rights offers a fresh perspective on human rights law and policy issues in the climate change regime by examining the interrelationships between various aspects of human rights climate change and migration Three key themes are explored understanding the concepts of human dignity human rights and human security the theoretical nexus between human rights climate change and migration or displacement and the practical implications and challenges for lawyers and policy makers of protecting human dignity in the face of climate change and displacement The book also includes a series of case studies from Alaska Bangladesh Kenya and the Pacific islands which aim to improve our understanding of the theoretical and practical implications of climate change for human rights and migration This book will be of great interest to scholars of environmental law and policy human rights law climate change and migration and refugee studies
