Communication in Accounting Education Richard M.S. Wilson, F. Elizabeth Gray, Lynn Hamilton, 2016-04-14 Accounting often described as the language of business requires a diverse set of written listening and oral communication skills if those who practise it are to be effective Given the pace of change relating to for example the evolution of international accounting

standards and the demands for greater transparency accountants must be clear responsive and audience focussed communicators Employers of accountants consistently comment on the need for their new graduate recruits and trainees to have strong written oral and interpersonal communication skills In this light accounting educators face the challenge of designing and delivering programmes that reflect professional expectations on the part of employers and clients and educating students on how to make informed communication choices in order to achieve desired results and to build good working relationships The chapters in this book deal with such topics as accounting students perceptions of oral communication skills competence based writing skills and the development of listening skills This book was originally published as Accounting Education an international journal *Fibre-reinforced concrete:From design to structural applications* FIB - Féd. Int. du Béton,2016 The FRC 2014 Workshop Fibre Reinforced Concrete from Design to Structural Applications was the first ACI fib joint technical event The Workshop held at Polytechnique Montreal Canada on July 24th and 25th 2014 was attended by 116 participants from 25 countries and 4 continents The first international FRC workshop was held in Bergamo Italy in 2004 At that time the lack of specific building codes and standards was identified as the main inhibitor to the application of this technology in engineering practice Ten years after Bergamo many of the objectives identified at that time have been achieved The use of fibre reinforced concrete FRC for designing structural members in bending and shear has recently been addressed in the fib Model Code 2010 Steel fibre reinforced concrete SFRC has also been used structurally in several building and bridge projects in Europe and North America SFRC has been widely used in segmental tunnel linings all over the world Members of ACI544 and fib TG 4.1 have been involved in writing code based specifications for the design of FRC structural members More than fifty papers were presented at the Workshop from which forty four were selected for this joint ACI fib publication The papers are organised in the document under six themes Design guidelines and specifications Material properties for design Behaviour and design of beams and columns Behaviour and design of slabs and other structures Behaviour and design of foundations and underground components and finally Applications in structure and underground construction projects **Prediction And Performance In Rock Mechanics and Rock Engineering** Giovanni Barla,2022-05-04 A collection of conference proceedings on rock mechanics and rock engineering covering such topics as foundations of dams bridges and large structures mining structures formulation of geotechnical models rock mass characterization and recent advances in modelling *The Behavior Analyst* ,1983
