Aradhna Aggarwal, 2024-03-28 Growth enhancing structural change a relocation of labour from low to high productivity sectors is increasingly perceived as inextricably linked with the sustainable development agenda In the pursuit of structural change policymakers have pinned their hopes on targeted policy tools such as special economic zones SEZs These geographically demarcated spaces designed to attract investment with a wide set of advantages have become de rigueur however a systematic evaluation of evidence informed policymaking is scarce due to conceptual and practical challenges This book fills that gap and shows that SEZs are no shortcut to economic development their success in driving economic transformation depends on the complex interplay of sociopolitical economic and strategic factors This book contributes to the burgeoning literature on SEZs by providing the first systematic evaluation of the SEZ policy It adopts the policy cycle approach to organise policy evaluation into three hierarchical layers input evaluation agenda building output evaluation policy designs and outcome evaluation immediate effects of SEZs on firms behaviour and performance with special reference to South Asian countries The strategy is to bring together the findings of microeconomic evaluations to draw macro inferences on the contribution of SEZs to the broader objectives of structural transformation and competitiveness Part I of the book delves into development challenges facing the region lays out theoretical foundations underlying the relevance of SEZs in addressing them and examines the relevance of SEZs in the context of South Asia Part II evaluates the policy first at systemic level to gauge whether and how the policy is rooted in broader development goals and then at the design level to examine the fit between the policy goals and designs Part III presents a counterfactual evaluation of the impact of SEZs on

investment climate export competitiveness of firms technology and innovation and knowledge linkages of SEZ firms with the wider economy The final chapter concludes by discussing the emerging challenges and the way forward This will be a useful reference for academics researchers policymakers and professionals in international trade and business public policy industrial economics and regional integration
