Physical Science Paper November 20memo

KJ Lindholm-Leary

Physical Science Paper November 20memo:

Business History: pt. 1, Business environment David J. Jeremy, Geoffrey Tweedale, 2005 *Automating Crime Prevention, Surveillance, and Military Operations* Aleš Završnik, Vasja Badalič, 2021-08-19 This interdisciplinary volume critically explores how the ever increasing use of automated systems is changing policing criminal justice systems and military operations at the national and international level The book examines the ways in which automated systems are beneficial to society while addressing the risks they represent for human rights This book starts with a historical overview of how different types of knowledge have transformed crime control and the security domain comparing those epistemological shifts with the current shift caused by knowledge produced with high tech information technology tools such as big data analytics machine learning and artificial intelligence The first part explores the use of automated systems such as predictive policing and platform policing in law enforcement The second part analyzes the use of automated systems such as algorithms used in sentencing and parole decisions in courts of law The third part examines the use and misuse of automated systems for surveillance and social control The fourth part discusses the use of lethal semi autonomous weapons systems in armed conflicts An essential read for researchers politicians and advocates interested in the use and potential misuse of automated systems in crime control this diverse volume draws expertise from such fields as criminology law sociology philosophy and anthropology
