

QUESTION 10 (Start on a new page.)

The balanced chemical equation for the EXTRACTION of gold from its ore is as follows:

- 10.1 State ONE disadvantage of using cyanide (CN^-) in the extraction of gold. (1)
- 10.2 Will the final solution of the extraction process be ACIDIC or BASIC (ALKALINE)? Give a reason for the answer. (2)
- 10.3 Determine the oxidation number of gold in NaAu(CN)_2 . (1)
- 10.4 Write down the FORMULA of the reducing agent in the reaction above. (1)

Zinc powder is now used to PRECIPITATE the gold.

The balanced equation for the reaction is:

- 10.5 Does zinc undergo OXIDATION or REDUCTION during the precipitation reaction? (1)
- 10.6 Write down a half-reaction to support the answer to QUESTION 10.5. (2)
- 10.7 Calculate the percentage of gold in NaAu(CN)_2 . (2)
- [10]**

Physical Science Paper1 Caps Dbe November 2014:

Teaching Reading Comprehension to English Learners in Secondary Schools: A Research-Based Approach Cekiso, Madoda, Olifant, Florence, Mokhtari, Kouider, 2025-04-23 Teaching reading comprehension to English learners ELs in secondary schools presents unique challenges as these students must navigate the complexities of academic texts and the intricacies of language acquisition. Effective instruction requires a research-based approach that considers the diverse linguistic, cultural, and cognitive backgrounds of these learners. Recent studies highlight the importance of integrating strategies that build both language proficiency and content knowledge, essential for helping ELs develop the skills needed to comprehend complex materials. Fostering metacognitive awareness through strategies like summarizing, questioning, and making connections can empower students to become active and strategic readers. This approach recognizes the need for a supportive, inclusive classroom environment that encourages language development while promoting academic achievement in content areas. Further research may help educators provide English learners with the tools to thrive as capable readers in secondary school. *Teaching Reading Comprehension to English Learners in Secondary School: A Research-Based Approach* explores various aspects of teaching reading comprehension to English Second Language (ESL) learners in secondary schools. It examines current challenges and evidence-based strategies in reading comprehension. This book covers topics such as language learning, reading strategies, and teacher training, and is a useful resource for academicians, researchers, and scientists. **Macmillan Physical Science** Denise Eby, 1988 *An Introduction to Physical Science* James T.

Shipman, 2000-01-01 **Prentice-Hall Physical Science** ANONIMO, 1980-06-01 *An Introduction to Physical Science* James T. Shipman, Jerry D. Wilson, Aaron W. Todd, 2006 *An Introduction to Physical Science* presents a survey of the physical sciences: physics, chemistry, astronomy, meteorology, and geology for non-science majors. Topics are treated both descriptively and quantitatively, providing flexibility for instructors who wish to emphasize a highly descriptive approach, a highly quantitative approach, or anything in between. The Eleventh Edition includes new content and features that help students better visualize concepts, master basic math, and practice problem solving. In response to instructor feedback, new end-of-chapter problems appear throughout the text. Sections on astronomy have been updated, and a review of basic math is now available on the Student Web Site. A dynamic technology package accompanies the text. With SMARTHINKING live online tutoring, students can get tutorial support during peak study hours. For instructors, a new Blackboard WebCT course along with HM ClassPrep and HM Testing resources provide course management tools that help make class preparation and assessment more efficient and effective. The new edition is available in both hardcover and at a reduced price paperback versions, giving students flexible options to meet their needs. New! The end-of-chapter material features Visual Connections that challenge students to demonstrate relationships between key concepts by asking them to create a diagram or concept map. Matching Questions test students' ability to match appropriate statements with key terms. Fill in the Blank Questions and

Multiple Choice Questions are keyed to the appropriate chapter section New A review of basic math is available on the Student Web Site With step by step tutorials of basic math concepts the review enables students to quickly attain the level of competency necessary for success in the course Problems and exercises follow each tutorial allowing students to test themselves on what they have learned New The Blackboard WebCT course contains a transition guide from the Tenth Edition to the Eleventh Edition PowerPoint slides with lecture notes and art from the text and support for the lab manual New Hardcover and softcover versions of the text are available providing students with flexible options to meet their needs Updated The leading three astronomy chapters have been rearranged for better continuity and more even coverage Chapter 15 Place and Time has been placed first to provide better continuity with Chapters 16 and 17 Chapter 16 The Solar System now focuses mainly on the planets while material on planet moons comets and asteroids has been moved to Chapter 17 Moons and Other Solar System Objects Updated Located at the end of each chapter On the Web exercises require students to use Internet resources to research topics explore concepts and solve problems Follow up links have been updated on the Student Web Site
