Beidas, Philip C. Kendall, 2014-05-20 Mental health disorders are common in youth impacting up to 1 in 5 children and adolescents Typically mental health difficulties result in impaired functioning and lower quality of life for both youth and their families Fortunately there are psychosocial treatments for the mental health needs of youth that have earned the evidence based label However these treatments are not widely available and it is estimated that it can take up to 17 years for them to be transported into community settings As a result a new field of dissemination and implementation DI science has emerged to address this problem Dissemination refers to the transfer of information about evidence based practices to community settings and implementation refers to active strategies to assist adoption of evidence based practices in community settings Dissemination and Implementation of Evidence Based Practices in Child and Adolescent Mental Health is the first book to bring together the world s foremost experts in implementation science and evidence based practices for youth to provide the latest findings around DI for children and adolescents Chapters provide comprehensive coverage of the science of dissemination and implementation across contexts disorders and international perspectives This volume will be an essential resource to implementation scientists and scholars instructors in doctoral level training programs and graduate students as well as policymakers community mental health clinicians and administrators school administrators researchers and other mental health professionals **Trust Protectors: A Practice Manual with Forms** Alexander A. Bove, Jr., 2014-09-01 The trust protector is generally regarded as a relatively new position in trust law and the key feature of the position is that the protector may be granted powers over the trust which are generally superior to those of the trustee This places the protector in a position where by the exercise of his powers he can cause the trust to adjust to unforeseen changes or new conditions without the need for court action or beneficiary approval This work takes the firm position that with only limited exception the role of the protector is a fiduciary one imposing on the protector a duty to act in the best interests of the purposes of the trust and the beneficiaries Unfortunately a substantial segment of the legal community as well as the legislative bodies of a number of international jurisdictions have taken a position that the protector is not a fiduciary or that he may be declared in the trust not to be a fiduciary and that the power granted him under the trust may be declared to be personal powers whether or not such is the case and thus he would have no liability for his actions or inactions while serving as protector This attraction of providing total exculpation of the protector has effectively engendered a quick acceptance of the position by the bulk of the legal community and even by the legislatures of a number of jurisdictions though almost totally unsupported by relevant case law As a result we have been

seeing trusts which incorporate the use of a protector having the power to make critical dispositive and administrative decisions as well as extensive modifications to the trusts without being exposed to liability for negligence or bad decisions which result in damages This work will examine in detail the role of the protector of the trust the relationship between the protector and the trustee between the protector and the beneficiaries and the protector s responsibilities to the purposes of the trust It will demonstrate with legal support that the role of the protector is not a new role that in fact the protector is simply a new name for the decades old position of trust advisor and that the trust advisor is consistently regarded as a fiduciary in relevant treatises and has been repeatedly held to be a fiduciary in relevant cases The discussion will also review and analyze the historical issues and professional commentary relevant to trust law and the role of protector as well as case decisions in various international jurisdictions which have shed light on the issues and some of the positions taken in the statutes of a number of jurisdictions in the United States and across the world All legal aspects of the role will be examined including the rights of the protector the protector s relationship to the trustee and the courts regard for and treatment of the position Further the work will discuss in detail all of the practical considerations in using a protector such as selection and special drafting considerations the use of a protector in a foundation and in brief the numerous tax issues that may apply The conclusion will be that with only very limited exception which will be explained the protector is unquestionably a fiduciary and just as a trustee he should be held to fiduciary standards Accordingly while it is certainly possible to grant personal powers to an individual under a trust those powers per se conflict with the duties of a protector And while it is also possible to reduce the fiduciary liability of a protector to a minimum it is not possible to eliminate it entirely regardless of trust language attempting to do so

Special Features of the UN Model Convention Anna Binder,Viktoria Wöhrer,2019-10-01 Detailed research on the UN Model Convention s unique features The UN Model Convention has a significant influence on international tax treaty practice and is especially used by emerging and developing countries as a starting point for treaty negotiations Driven by the aim to achieve consistency in the international tax treaty practice the structure and content is to a large extent similar in the UN Model and the OECD Model However whereas the OECD has historically focused its efforts on issues mainly relevant for developed countries the UN Tax Committee has continuously attempted to specifically take into account tax treaty policies for developing countries when drafting and amending the UN Model Convention Compared to the OECD Model Convention the UN Model Convention aims at giving more weight to the source principle Popular examples are the PE definition in the UN Model which provides for a lower threshold than Article 5 of the OECD Model or Article 12A on Fees for Technical Services which has been introduced with the latest amendment of the UN Model Convention 2017 and allows for a withholding tax to be levied on payments to non

residents when the payer of the fee is a resident of that contracting State irrespective of where the services are provided Interestingly in the discussions of the tax challenges arising from the digitalization of the economy the OECD and the G20 are also exploring options to allocate more taxing rights to the jurisdiction of the customer and or user i e the market jurisdictions As this has traditionally been the focus of the UN Model Convention its unique features and developing countries practices could be taken into account when exploring new nexus rules that are not constrained by the physical presence requirement This book contains the master s theses of the full time LL M program 2018 2019 for which Special Features of the UN Model Convention has been chosen as the general topic With this book the authors and editors do not aim at discussing each article of the UN Model Convention but rather focus on the unique features of the UN Model Convention which are explored in detail This is supplemented with an evaluation of the function and relevance of the UN Tax Committee in the international tax policy discussion and with an analysis of the influences of the OECD s BEPS project on the UN Model he OECD s BEPS project on the UN Model *Fiscal Transparency Handbook (2018)* International Monetary Fund. Fiscal Affairs Dept.,2018-04-16 The IMF s Fiscal Transparency Code is the international standard for disclosure of information about public finances and is the centerpiece of the global architecture on fiscal transparency The Fiscal Transparency Handbook 2018 provides detailed guidance on the implementation of the new Fiscal Transparency Code which was approved by the IMF Board in 2014 It explains why each principle of the Code is important and describes current trends in implementation of the principles noting relevant international standards as well Selected country examples are also provided

Zero Hours and On-call Work in Anglo-Saxon Countries Michelle O'Sullivan,Jonathan Lavelle,Juliet McMahon,Lorraine Ryan,Caroline Murphy,Thomas Turner,Patrick Gunnigle,2019-04-25 This book focuses on zero hours and on call work as an extreme form of casual and precarious employment It includes country studies of the USA Canada Australia the UK New Zealand and Ireland where there has been increasing concern about the prevalence of such work and working time uncertainty as well as varying levels of public policy debate on regulation The book incorporates a comparative review of zero hours work based on the findings of the country studies This pays particular attention to state regulatory responses to zero hours work and incorporates the sociological concepts of accumulation and legitimation functions of the state Exploring the regulation of zero hours work beyond individual countries the book includes an analysis of external regulation of zero hours work at the supranational level namely the European Union and ILO Further it assesses the implications of zero hours for workers in new sectors of economic activity particularly the impact of the platform or gig economy on the fundamental nature of the employment relationship It also considers the societal implications of zero hours work and the ethical responsibilities of employers and governments towards workers as citizens Audit Technique Handbook for Estate Tax Examiners United States. Internal Revenue Service,1975 **Health Taxes: Policy And Practice** Jeremy A Lauer,Franco Sassi,Agnes Soucat,Angeli Vigo,Laragh Gollogly,2023-01-17 Virtually all fiscal measures influence

people's health through their impacts on behaviour consumption income and wealth A narrow subset of fiscal measures however can be more directly aimed at improving health by targeting behaviours and risks that are known to be strongly associated with health outcomes The purpose of this book is to discuss the subject of these measures which we define as health taxes The book aims to enumerate key health taxes of interest explore their positive and negative effects and how these effects are influenced by the design of these taxes and the context in which they are applied We ask how and where they can be implemented Critically we build an argument throughout the book for why policymakers across government should care about health taxes

Economics Of Tobacco Control In China: From Policy Research To Practice Teh-wei Hu, 2016-06-10 Nearly 370 million people in China smoke about one third of all smokers in the world are in China and about 1.2 million deaths in China are attributable to smoking The death toll is expected to reach 2.2 million in 2030 if no smoking intervention programs are implemented Taxation on tobacco products is one of the most effective tobacco control programs This book addresses not only why China should raise cigarette tax but also how to raise the tobacco tax by providing decision makers with relevant research findings and quantitative estimate about the impact of raising the tobacco tax It documents how these research findings were communicated to the Chinese government officials and how finally tobacco tax was raised 10 years after China's ratification of the WHO Framework Convention on Tobacco Control Treaty The purposes of this book are 1 to inform economists public health professionals and policymakers about the economic consequences of smoking 2 to provide the essential economics particularly related to taxation and public health information upon which to build the specifics of the taxation policy that is adopted 3 to identify barriers challenges and recommendations for the Chinese government and 4 to describe how research findings can be disseminated and communicated successfully to Chinese government policy makers It is a must read for researchers who are interested in China's tobacco control efforts and in how to communicating their findings to the policy makers It could also be useful for tobacco control professionals researchers and policy makers in other countries

Budgeting for Local Governments and Communities Douglas Morgan, Kent S. Robinson, Dennis Strachota, James A. Hough, 2017-09-19 Budgeting for Local Governments and Communities is designed as the primary textbook for a quarter or semester long course in public budgeting and finance in an MPA programme Many currently available texts for this course suffer from a combination of defects that include a focus on federal and state budgeting a lack of a theoretical governance framework an omission of important topics and typically a lack of exercises and datasets for student use Budgeting for Local Governments and Communities solves all of these problems The book is exceptionally comprehensive and well written and represents the

efforts of veteran authors with both teaching and real world experience Key Features Special Focus on Local Government Budgeting focuses exclusively on budgeting at the local levels of American government which are responsible for spending 40 percent of the taxes collected from citizens Integration of Theory and Practice teaching cases and chapters capture the lessons learned by professional practitioners who have extensive experience in making local public budgeting work on the ground Polity Approach to Local Budgeting presents an introduction to local budgeting as the central political activity that integrates the resources of the community into a unified whole Budgeting is presented as governance work rather than as a unique set of skills possessed by analysts and financial specialists Legal Historical Economic and Moral Foundations of Local Government Budgeting provides readers with an understanding of how the structures and processes of local budgeting systems are firmly tethered to the underlying core values legal principles and historical development of the larger American federal state and local political systems Electronic Datasets and Budgeting Exercises the text includes access to extensive electronic datasets and practice exercises that provide abundant opportunities for students to learn through doing Extensive Glossary and Bibliography covers terms on the history and practice of local public budgeting

Architecture in an Age of Uncertainty Benjamin Flowers, 2016-04-15 In the past two decades economic bubbles inflated and architectural spending around the globe reached fever pitch In both well established centers of capital accumulation and far flung locales audacious building projects sprang up while the skyscraper heretofore more commonly associated with American capitalism seemed as if it might pack up and relocate to Dubai and Shanghai Of course much has changed in the past couple of years In formerly free spending Dubai the tallest building in the world is now is named after the president of Abu Dhabi after he stepped in with last minute debt financing In cities across the United States housing prices have nose dived and cleared lots sit ready for commercial redevelopment that likely won't take place for another decade Similar stories are not hard to find in many other nations Architecture firms that swelled in flush days are jettisoning employees at a startling rate In the context of economic instability and its attendant social and political consequences this edited volume brings together scholars critics and architects to discuss the present state of uncertainty in the practice and discipline of architecture The chapters are organized into three main areas of inquiry economics practice and technology Within this larger framework authors explore issues of security ecological design disaster architecture the future of architectural practice and the ethical obligations of the social practice of design In doing so it argues that this period has actually afforded architecture a valuable moment of self reflection where alternative directions for both the theory and practice of architecture might be explored rather than continuing with an approach which was so nurtured by capitalist prosperity and affluence

House Practice Charles W. Johnson (III), John V. Sullivan, Thomas J.
