Powell, Bhabani Shankar Nayak, 2022-09-28 This volume critically analyses the conceptual contours of pedagogical transformations in the field of creative business education. It calls for an integrated and ethnographic approach to understand to analyse and to innovate creative curricula that is different from traditional business and management educations and its compliant culture. The book argues for a pluriversal vision based on social intelligence, critical thinking, inclusivity and creativity, resulting in a holistic pedagogy that understands the social needs of people and of the planet. The critical reflections on everyday realities of life are central to this intercultural pedagogic approach to understanding and explaining different forms of contemporary crisis. The book brings together interdisciplinary academic practitioners and their praxis with different philosophical orientations within a single ethnographic and theoretical narrative to reclaim global citizenship rights in the age of artificial intelligence, democratic deficit, hyperreality and alienation. In this way, the volume breaks away from the narrow silo of disciplinary boundaries to outline the pedagogical praxis of creative and critical business education that challenges existing knowledge, power and institutions while offering alternative pedagogic approaches to learning, teaching and research.
