De la théorie au diagnostic en passant par les différents traitements possibles, c'est plus de 48 maladies qui sont étudiées dans le présent volume. S'appuyant sur les textes fondateurs chinois classiques et modernes, l'auteur expose avec le soin qui a fait sa réputation les concepts de la pratique de l'acupuncture et de la phytothérapie. Cette seconde édition pense comme une encyclopédie enrichie de nombreuses illustrations et de 14 pathologies comme l'anxiété, l'hypertension ou encore la fibromyalgie. Faisant suite aux Principes fondamentaux de la médecine chinoise, cet ouvrage apportera aux étudiants et aux cliniciens des réponses concrètes à leurs questionnements. Chaque chapitre présente la théorie et la pathologie. Une sélection de traitements utilisant l'acupuncture et les plantes médicinales. Une liste de publications contemporaines chinoises. Les différences entre les diagnostics traditionnels chinois et occidentaux. De nombreuses illustrations, cas cliniques et résumés qui viennent clarifier et faciliter la lecture.

Addictologie Michel Lejoyeux,2013-07-02 La diversité des conduites addictives est devenue un problème de santé majeur en termes de prévention et de soins. Un regroupement des pratiques des moyens et des lieux de soins a été proposé autour de l'addiction, elle-même dont la diversité des objets n'entame pas l'unité structurelle. Ainsi, l'addictologie s'est constituée en discipline nouvelle, intéressant l'ensemble des aspects cliniques biologiques, socioculturels et thérapeutiques des conduites addictives. En réunissant les plus grands spécialistes de l'addiction, cette 2e édition enrichie se fait l'objet de ces avancées par son approche globale. Chaque produit fait l'objet d'un chapitre spécifique : alcool, tabac, cannabis.
