

NISSAN'S TOP 10 TRAILER TOWING TIPS

-  **Ensure your trailer and vehicle are a match.** Consult your owner's manual for the maximum trailer weight and tongue load.
-  **Check all fluids—especially oil and coolant levels.** Towing puts an extra strain on a vehicle, especially in summer.
 The **Vehicle Information Display** on the TITAN includes auxiliary gauges to help monitor engine and transmission temperatures.
-  **Maintain correct tire pressure for tow vehicle and trailer.** And don't forget the spare!
 **Easy-Fill Tire Alert** is available on a range of Nissan products and eliminates the need for a tire pressure gauge when inflating tires. The vehicle simply "honks" when the tire reaches the correct pressure.
-  **Be sure to have the proper jack(s) and lug wrench(es)** for your trailer (and/or spare tire) because your normal jack might not fit everything you need.
-  **Check and lubricate trailer wheel bearings** at the beginning of each season, and even more frequently if submerged in water like when launching a boat.
-  **Ensure you have the proper hitch.** Your drawbar will be at the correct height when your trailer sits level when coupled. And be sure you have the right size tow ball to match your trailer coupler.
-  **Be sure the safety chains are connected and properly crossed,** not in danger of dragging on the ground. If you have a trailer with brakes, don't forget to connect the cable for the breakaway switch.
-  **Connect your trailer wiring,** with either a flat, 4-pin connector for light duty trailers or a 7-pin connector for trailers with brakes. A great way to make sure connectors stay free of corrosion is to add some dielectric grease to the pins.
-  **Always check trailer lights are functioning properly.**
 Nissan's **Trailer Light Check**, available on TITAN and TITAN XD makes checking trailer lights as simple as pressing a button on the key fob.
-  **Adjust the gain and boost settings on your trailer brake controller** according to the manufacturer's recommendations. And when you start to roll-out, be sure to check your trailer brakes are operating early by using the manual switch on the controller. You should feel an immediate drag on the tow vehicle.
 An integrated **trailer brake controller** is available on Nissan TITAN and TITAN XD equipped with trailer towing packages.
