Desert Mash Clifford D. Cope,2009-09 This is a historical fiction satire story written based on my feelings and views gathered in the workplace of both the civilian and military environment It may even present itself as anti war to some However it is just a conglomeration of my thoughts after spending much time within the military and always wanting to make it a lifelong job and adventure I had spent many years working in the field of performance and productivity with the both the military and civilian workplace I attended many schools and classes outside of my college classes which focused somewhat on anti micromanagement While taught and preached micro management is one aptitude I failed to see disappear while I worked in the military or civilian positions as a soldier and as a leader from the end of Vietnam era to today I wrote this satire setting in the military realm with influence from one of my most favorite television shows and movie which was M A S H 4077 I recall one time while working as a field consultant for the military productivity division coming into the classroom we were to teach a class on leadership at The lead instructor had written on the board PERCEPTION IS REALITY I was a newcomer to the division and only a lieutenant at the time but opened my mouth as I read the board out loud Wow whoever wrote that did not know apples from oranges I did not realize the department staff was sitting in the adjoining room having coffee and reviewing for the class As I entered the room all eyes were upon me and I was asked if I had a problem with today s lesson Knowing I was in the dog house I said no I was then asked by the lead instructor to define the topic written on the board I said Well I think Reality can be deceived by one s perception based upon the angle their senses absorbs the event I added that it was a great topic and that we should teach this great relationship between the brain and the outside world We

could add to the comment that all apples are fruits but not all fruits are apples Was my final comment for the day as I sat down for meeting too begin I soon learned that I would not be teaching that day One of my most favorite songs Don t Rock my Boat by Bob Marley began playing in my head and still is today So this book as well as some of my others will most likely rock someone s boat As an anthropologist by degree I did want to participate in a war as my father and other family members This is a human characteristic that will be with mankind for many years I do see it as a profit in the area of capital gain for some as well as a gain of dominance for a few others I also have learned from studies as well as experience that some wars are a waste of human life along with destruction of social and material products of nature and humans I probably have watched all of the good old TV series and movie M A S H and sometimes caught myself saying Ah hell there is no way that could really happen Well I have learned yes it can and unfortunately will continue as abusive power exists **Daily Graphic** Ransford Tetteh,2010-03-31 **LADA from Leningrad** Alexander Yurkovsky,2025-02-11 LADA X cross 5 2022 2022 To your attention is a small book to the history of the car LADA X cross 5 The aggravation of the Russian Ukrainian conflict in February 2022 led to the introduction of economic sanctions against Russia which affected the country s automotive industry A number of foreign brands left the automobile market and closed their assembly plants The first half of 2022 became a period of great trials for the Russian automotive industry Due to the sanctions imposed by the West the import of certain automobile components was directly prohibited while the supply of others became impossible due to the disruption of logistics chains Many foreign car companies including European and Japanese ones were directly prohibited from investing in the Russian economy As a result automobile assembly plants of which there have been many in Russia in recent decades still worked on the remnants of already imported car components last spring but by the middle of the year almost all of them stopped In the second half of the year some of the plants left by foreigners ended up in the hands of Russian owners Those in their turn quickly announced the restart of production However in a somewhat unexpected way with the participation of often unnamed foreign partners Our present day hero who will be discussed was born just because of these events This publication is intended for a wide range of readers interested in automotive technology and history **Automotive News** ,2008 Canadian Key Business Directory ,1988
