English Language Arts, Grade 6 Module 1 PCG Education,2015-10-01 Paths to College and Career Jossey Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts ELA curriculum and

professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research, and write from sources and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6-12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes Nationally recognized professional development from an organization that has been immersed in the new standards since their inception, Blended learning experiences for teachers and leaders that enrich and extend the learning, A train the trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

Assessment of Authentic Performance in School Mathematics Richard A. Lesh, Susan J.

Lamon, 2013-04-03 This book is the result of a conference sponsored by the Educational Testing Service and the University of Wisconsin's National Center for Research in Mathematical Sciences Education. The purpose of the conference was to facilitate the work of a group of scholars whose interests included the assessment of higher-order understandings and processes in foundation-level pre-high school mathematics. Discussions focused on such issues as the purposes of assessment, guidelines for producing and scoring real-life assessment activities, and the meanings of such terms as deeper and higher-order understanding, cognitive objectives, and authentic mathematical activities. Assessment was viewed as a critical component of complex, dynamic, and continually adapting educational systems. During the time that the chapters in this book were being written, sweeping changes in mathematics education were being initiated in response to powerful recent advances in technology, cognitive psychology, and mathematics, as well as to numerous public demands for educational reform. These changes have already resulted in significant reappraisals of what it means to understand mathematics, of the nature of mathematics teaching and learning, and of the real-life situations in which mathematics is useful. The challenge was to pursue assessment-related initiatives that are systematically valid in the sense that they work to complement and enhance other

improvements in the educational system rather than act as an impediment to badly needed curriculum reforms To address these issues most chapters in this book focus on clarifying and articulating the goals of assessment and instruction and they stress the content of assessment above its mode of delivery Computer or portfolio based assessments are interpreted as means to ends not as ends in themselves Assessment is conceived as an ongoing documentation process seamless with instruction whose quality hinges upon its ability to provide complete and appropriate information as needed to inform priorities in instructional decision making This book tackles some of the most complicated issues related to assessment and it offers fresh perspectives from leaders in the field with the hope that the ultimate consumer in the instruction assessment enterprise the individual student will reclaim his or her potential for self directed mathematics learning

Happy-performing Managers Peter Hosie, 2006-01-01 This book brings contemporary rigour to solve an age old conundrum in management do happy workers perform better Decades of research and mixed empirical evidence have been unable to establish a strong link between affective well being intrinsic job satisfaction and managers performance This book employs a unique methodology new empirical evidence and a definitive analysis of previous research to move towards supporting the happy productive worker thesis The contributors illustrate that establishing how affective well being and intrinsic job satisfaction predicts performance it is now possible to demonstrate how deterioration or an improvement in affective well being and intrinsic job satisfaction impacts managerial performance *Performance-Based Certification* Judith Hale, 2011-11-21 Are your employees qualified Looking for qualified people to do competent work How do you ensure that the people you hire can do the job right An ever increasing number of organizations are asking the same questions Certification planning is the answer and Performance Based Certification is the key This is the only book on the market that addresses the growing need to monitor the qualifications of employees You ll be able to quickly customize the certification tests and other job aids provided on the accompanying disk Create a certification program within your organization to Instill confidence that employees members or suppliers are qualified to meet the needs of your customers Ensure that your workforce is trained and competent to their job Make your hiring process more cost effective and legally defensible Recognize competence and consistency of your employees Once you ve identified the need for a certification program what s the next step All of the answers are here
