Periodic Table Who Am I

John Trautwein

Periodic Table Who Am I:

I Am Who I Am Rev. Thomas O'Donnell, 2006-10-04 Said God to Moses I am who I am Ever since questions about God abound Who what where when why Even how many In the Christian faith tradition what about all that trinitarian stuff the Father the Son the Holy Spirit Is it one God Three Gods What's up I AM WHO I AM is God's answer to all these questions and more For the first time ever God speaks out The God of the Holy Spirit the immanent God inside speaks out And all is good I AM WHO I AM is God's answer to all these questions and more For the first time ever God speaks out By overthrowing the hierarchical Trinity with the Father enjoying a view from the top and the Holy Spirit bringing up the rear and by replacing it with a circular Trinity having no beginning and no end for the first time ever God is free to speak God's mind The God of the Holy Spirit the immanent God inside speaks out And all is good The book is divided into six Parts as we all know on the seventh God rests After a general introduction in Part I Parts II-IV are devoted to each persona of the Trinity offering thoughts on anything and everything on Creation and the Creative Process on the mind of God on the need for an extreme makeover when it comes to God and the Holy Trinity in contemporary society on the universality of the story of Jesus and so much more Speaking to the reader in no nonsense user friendly terms Part V addresses such theological topics as The Prayer of the Preyer S I N Satan Heaven Hell and everything in between The final part the Epilogue is a return of that talking donkey out of the Book of Numbers Balaam's Donkey reporting from the parade route of Jesus into Jerusalem It is something that no one should miss Finally an autobiography of God as seen through the lens of God Finally the God of the Holy Spirit gets his/her say And all is good I AM WHO I AM is the first of three autobiographies featuring God Satan and Jesus respectively Stay tuned for Satan's personal story in E-MAILS FROM THE UNDERWORLD and for I AM THE WORD AN AUTOBIOGRAPHY OF JESUS

Who Am I to Judge? Edward Sri, 2017-01-12 Don't be so judgmental Why are Christians so intolerant Why can't we just coexist In an age in which preference has replaced morality many people find it difficult to speak the truth afraid of the reactions they will receive if they say something is right or wrong Using engaging stories and personal experience Edward Sri helps us understand the classical view of morality and equips us to engage relativism appealing to both the head and the heart Learn how Catholic morality is all about love why making a judgment is not judging a person's soul and why in the words of Pope Francis relativism wounds people Topics include Real Freedom Real Love Sharing truth with compassion Why I disagree doesn't mean I hate you

Consciousness Revisited Michael Tye, 2011-08-19 Four major puzzles of consciousness philosophical materialism must confront after rejecting the phenomenal concept strategy We are material beings in a material world but we are also beings who have experiences and feelings How can these subjective states be just a matter of matter To defend materialism philosophical materialists have formulated what is sometimes called the phenomenal concept strategy which holds that we possess a range of special concepts for classifying the subjective aspects of our experiences In Consciousness Revisited the philosopher Michael Tye until now a proponent of the the phenomenal concept strategy argues that the strategy is mistaken A rejection of phenomenal concepts leaves the materialist with the task of finding some other strategy for defending materialism Tye points to four major puzzles of consciousness that arise How is it possible for Mary in the famous thought experiment to make a discovery when she leaves her black and white room In what does the explanatory gap consist and how can it be bridged How can the hard problem of consciousness be solved How are zombies possible Tye presents solutions to these puzzles solutions that relieve the pressure on the materialist created by the failure of the phenomenal concept strategy

In doing so he discusses and makes new proposals on a wide range of issues including the nature of perceptual content the conditions necessary for consciousness of a given object the proper understanding of change blindness the nature of phenomenal character and our awareness of it whether we have privileged access to our own experiences and if we do in what such access consists
