

SAMPLE MPH EPIDEMIOLOGY PERSONAL STATEMENT

When an emergency hits, there's no time for mistakes, and each action must be carefully planned so as net a positive benefit. As an emergency medical technician in college, I have been in situations like this, where the survival of the patient came down to how well we could coordinate efforts as a team with medical centers to ensure the speediest and yet careful operations. My experience as an EMT is what allowed me to develop an interest in epidemiology, and has inspired me to apply for this Master's in Public Health program specializing in Epidemiology.

During my last year of college, I traveled to Guatemala to perform on-site studies of a new type of parasitical disease that was spreading quickly through a small village in the north. In order to prevent the disease from spreading to other areas, our first steps were to work with the local authorities to quarantine the area and bring in necessary medical volunteers to help observe and treat patients. Since it was a new parasitical disease, we had to carefully document all symptoms in order to better understand the progression of the disease. This combination of field research and operations coordination is what I hope to continue to do as a public health officer in the future.

As a Master's of Public Health, I hope to be able to use my degree to be able to benefit disease tracking and treatment efforts around the globe. Through this graduate program, I will be given the opportunity to take part in on-site research efforts, and continue to foster my understanding of the scientific method. Additionally, I will be able to use my education to help promote better educational efforts of health initiatives to promote wellness in the community. This graduate degree program will enable me to continue to pursue my dream to help areas around the world facing disease outbreaks, while improving response and educational efforts.
