Anderson, 2013-02-15 *Holistic Personal Finance* Alexandria Blaelock, 2020-09-01 Tired of hearing you'll never be wealthy unless you sacrifice all the things that make you feel wealthy? Ever notice how managing money always seems to mean cutting back on small daily pleasures like lattes and lunches? Borrowing techniques from business, Alexandria reveals how a meaningful vision of your future is the missing link. Planning and managing spending brings your dreams to life. The New Money Book of Personal Finance Editors of Money Magazine, 2008-12-14 From the nation's foremost magazine on everyday money management comes an authoritative reference guide for personal finance that's newer, bigger, and fully updated for a new economy. Since its publication, the original Money Book of Personal Finance has become America's definitive all-in-one guide to total financial well-being at every stage of life. The Discourse of Character Education Peter Smagorinsky, Joel Taxel, 2005-05-06 In this book, Peter Smagorinsky and Joel Taxel analyze the ways in which the perennial issue of character education has been articulated in the United States, both historically and in the current character education movement that began in earnest in the 1990s. The goal is to uncover the ideological nature of different conceptions of character education. The authors show how the current discourses are a continuation of discourse streams through which character education and the national purpose have been debated for hundreds of years, most recently in what are known as the Culture Wars: the intense, often passionate debates about morality, culture, and values carried out by politicians, religious groups, social policy foundations, and a wide range of political commentators and citizens in which the various stakeholders have sought influence over a wide range of

social and economic issues including education The centerpiece is a discourse analysis of proposals funded by the United States Department of Education s Office of Educational Research and Improvement OERI Discourse profiles from sets of states that exhibit two distinct conceptions of character are examined and the documents from particular states are placed in dialogue with the OERI Request for Proposals One profile reflects the dominant perspective promoted in the U S based on an authoritarian view in which young people are indoctrinated into the value system of presumably virtuous adults through didactic instruction The other reflects the well established yet currently marginal discourse emphasizing attention to the whole environment in which character is developed and enacted and in which reflection on morality rather than didactic instruction in morality is the primary instructional approach By focusing on these two distinct regions and their conceptions of character the authors situate the character education movement at the turn of the twenty first century in the context of historical notions about the nature of character and regional conceptions regarding the nature of societal organization This enlightening volume is relevant to scholars practitioners policymakers and students across the field of education particularly those involved in character education moral development discourse analysis history and cultural foundations of education and related fields and to the wider public interested in character education
