**Climate Change 2021 - The Physical Science Basis** Intergovernmental Panel on Climate Change (IPCC), 2023-07-26  
The Working Group I contribution to the Sixth Assessment Report of the Intergovernmental Panel on Climate Change IPCC provides a comprehensive assessment of the physical science basis of climate change. It considers in situ and remote observations, paleoclimate information, understanding of climate drivers and physical, chemical and biological processes and feedbacks, global and regional climate modelling, advances in methods of analyses and insights from climate services. It assesses the current state of the climate, human influence on climate in all regions, future climate change including sea level rise, global warming effects including extremes, climate information for risk assessment and regional adaptation, limiting climate change by reaching net zero carbon dioxide emissions and reducing other greenhouse gas emissions and benefits for air quality. The report serves policymakers, decision makers, stakeholders and all interested parties with the latest policy relevant information on climate change. Available as Open Access on Cambridge Core.

**Distance Learning** Michael Simonson, Charles Schlosser, John G. Flores, 2016-06-01 Distance Learning is for leaders, practitioners and decision makers in the fields of distance learning, e-learning, telecommunications and related areas. It is a professional journal with applicable information for those involved with providing instruction to all kinds of learners of all ages using telecommunications technologies of all types. Stories are written by practitioners for practitioners with the intent of providing usable information and ideas. Articles are accepted from authors new and experienced with interesting and important information about the effective practice of distance teaching and learning. Distance Learning is published quarterly. Each issue includes eight to ten articles and three to four columns, including the highly regarded 'And Finally' column covering recent important issues in the field and written by Distance Learning editor Michael Simonson. Articles are written by practitioners from various countries and locations nationally and internationally. Distance Learning is an official publication of the United States Distance Learning Association and is co-sponsored by the Fischler School of Education at Nova Southeastern University and Information Age Publishing.

*Cooperative Radio Communications for Green Smart Environments* Narcis Cardona, 2022-09-01 The demand for mobile connectivity is continuously increasing and by 2020 Mobile and Wireless Communications will serve not only very dense populations of mobile phones and nomadic computers but also the expected multiplicity of devices and sensors located in machines, vehicles, health systems and city infrastructures. Future Mobile Networks are then faced with many new scenarios and use cases which will load the networks with different data traffic patterns in new or shared spectrum bands, creating new specific requirements. This book addresses both the techniques to model, analyse and optimise the radio links and transmission systems in such scenarios together with the most advanced radio access resource management and mobile networking technologies. This text summarises the work performed by more than 500 researchers from more than 120 institutions in Europe, America and Asia from both academia and industries within

the framework of the COST IC1004 Action on Cooperative Radio Communications for Green and Smart Environments The book will have appeal to graduates and researchers in the Radio Communications area and also to engineers working in the Wireless industry Topics discussed in this book include Radio waves propagation phenomena in diverse urban indoor vehicular and body environments Measurements characterization and modelling of radio channels beyond 4G networks Key issues in Vehicle V2X communication Wireless Body Area Networks including specific Radio Channel Models for WBANs Energy efficiency and resource management enhancements in Radio Access Networks Definitions and models for the virtualised and cloud RAN architectures Advances on feasible indoor localization and tracking techniques Recent findings and innovations in antenna systems for communications Physical Layer Network Coding for next generation wireless systems Methods and techniques for MIMO Over the Air OTA testing

**Capturing Social and Behavioral Domains and Measures in Electronic Health Records** Institute of Medicine, Board on Population Health and Public Health Practice, Committee on the Recommended Social and Behavioral Domains and Measures for Electronic Health Records, 2015-01-08 Determinants of health like physical activity levels and living conditions have traditionally been the concern of public health and have not been linked closely to clinical practice However if standardized social and behavioral data can be incorporated into patient electronic health records EHRs those data can provide crucial information about factors that influence health and the effectiveness of treatment Such information is useful for diagnosis treatment choices policy health care system design and innovations to improve health outcomes and reduce health care costs Capturing Social and Behavioral Domains and Measures in Electronic Health Records Phase 2 identifies domains and measures that capture the social determinants of health to inform the development of recommendations for the meaningful use of EHRs This report is the second part of a two part study The Phase 1 report identified 17 domains for inclusion in EHRs This report pinpoints 12 measures related to 11 of the initial domains and considers the implications of incorporating them into all EHRs This book includes three chapters from the Phase 1 report in addition to the new Phase 2 material Standardized use of EHRs that include social and behavioral domains could provide better patient care improve population health and enable more informative research The recommendations of Capturing Social and Behavioral Domains and Measures in Electronic Health Records Phase 2 will provide valuable information on which to base problem identification clinical diagnoses patient treatment outcomes assessment and population health measurement
