The Roeper School Don Ambrose, Bharath Sriraman, Tracy L. Cross, 2013-12-30 How can we design schools that energetically promote intellectual development while also attending to the social emotional and ethical growth of students In today's frenzied climate of accountability driven school reform it is difficult to establish anything more than achievement of superficial knowledge and skill Fortunately there is a vibrant example of holistic student centered education that engenders dynamic multidimensional student growth The Roeper School enables students to develop strong intrinsic motivation as they discover aspirations and develop talents consistent with those aspirations Simultaneously from a very young age students take considerable

responsibility for their own actions and for the processes that go on in their school Following the Roeper philosophy each student generates a long term sense of purposeful direction a strong sense of intrapersonal awareness impressive creative and critical thinking skills and a finely tuned sense of ethical responsibility Upon graduation Roeper students are well prepared to find or create highly productive niches in the world of work and rewarding personal lives while serving as mature ethical citizens of a complex 21st century globalized society This book includes descriptions of the multidimensional education the Roeper School provides The perspectives in the volume are diverse coming from leading researchers and theorists in the field of gifted education as well as teachers administrators alumni and current students from the school itself Overall the book provides a beacon of hope for 21st century education

Beverly J. Klug, 2012-11-28 The majority of American Indian students attend public schools in the United States However education mandated for American Indian students since the 1800s has been primarily education for assimilation with the goal of eliminating American Indian cultures and languages Indeed extreme measures were taken to ensure Native students would act white as a result of their involvement with Western education Today s educational mandates continue a hegemonic

one size fits all approach to education This is in spite of evidence that these approaches have rarely worked for Native students and have been extremely detrimental to Native communities This book provides information about the importance of teaching American Indian students by bridging home and schools using students cultural capital as a springboard for academic success Culturally Responsive Pedagogy is explored from its earliest beginnings following the 1928 Meriam Report Successful education of Native students depends on all involved and respect for the voices of American Indians in calling for education that holds high expectations for native students and allows them to be grounded in their cultures and languages
