Manual of Applied Romance Linguistics Vera Mathieu, Julia Montemayor Gracia, Claudia Polzin-Haumann, 2025-06-16
This handbook provides a systematic overview firstly of the basic concepts and secondly of current research topics and trends in Applied Romance Linguistics from a theoretical methodological and empirical perspective. It takes account of both traditional and innovative research approaches. Following a general introduction to the field and its major topics, methods and objectives, the presentation is divided into four thematic sections: methods and methodology, language society and knowledge, language acquisition and language education, specialised communication and transfer.
