Context represents a pragmatic and novel approach to competitive strategy and strategic thinking. It makes use of numerous examples across the public and private sectors to demonstrate strategy from three dimensions: external context, internal context, and an organisation-specific context. This exciting new textbook explores different ways of thinking about strategy, balanced and underpinned throughout using a pragmatic perspective to address real-world strategic issues. Each chapter includes real-life short cases from a variety of sectors and regions designed to demonstrate how theoretical concepts are used to resolve practical challenges. Through this multi-dimensional approach, this book encourages managers to be more creative and ambidextrous in their strategic thinking, harnessing the power of context to leverage the best from their organisation's resources and capabilities. This textbook is suitable as both recommended and core reading for postgraduate MBA and executive students of Strategic Management. Online resources include PowerPoint slides and a test bank. **House & Garden**, 2004. Autocar, 2004. *The History of English* Ishtia Singh, 2013-09-05. The History of English provides an accessible introduction to the changes that English has undergone from its Indo-European beginnings to the present day. The text looks at the major periods in the history of English and provides for each a socio-historical context, an overview of the relevant major linguistic changes, and also focuses on an area of current research interest, either in sociolinguistics or in literary studies. Exercises and activities that allow the reader to get hands-on with different stages of the language, as well as with the concepts of language change, are also included. By explaining language change with close reference to literary and other textual examples and emphasising the integral link between a language and its society, this text is especially useful for students of literature as well as linguistics. **Autocar & Motor**, 1990-09.
