This volume offers a thorough introduction to Jewish world literatures in Spanish and Portuguese which not only addresses the coexistence of cultures but also the functions of a literary and linguistic space of negotiation in this context From the Middle Ages to present day the compendium explores the main Jewish chapters within Spanish and Portuguese language world literature whether from Europe Latin America or other parts of the world No comprehensive survey of this area has been undertaken so far Yet only a broad focus of this kind can show how diasporic Jewish literatures have been and are while closely tied to their own traditions deeply intertwined with local and global literary developments and how the aesthetic praxis they introduced played a decisive formative role in the history of literature With this epistemic claim the volume aims at steering clear of isolationist approaches to Jewish literatures **Princeton Alumni Weekly** ,1977 **Enriching**

Business Ethics Clarence C. Walton,2013-06-29 Over thirty years ago Alfred North Whitehead wrote If America is to be civilized it has to be done at least for the present by the business class who are in possession of the power and the economic resources If the American universities were up to their job they would be taking business in hand and teaching it ethics and professional standards To the intellectual elites of his time there was something of a minor in Whitehead s view Few of them saw business as a civilizing force heresy and even fewer feeling that business was not to be tamed relished the role of the lion tamers Not many today doubt Whitehead s wisdom Organiza tions of wealth and power have accepted their corporate social responsibili ties and universities have launched major efforts to provide ethical instruc tion for business personnel So far as the scholars are concerned they quickly came to realize the difficulty of an undertaking that seeks to redefine and apply moral criteria to a very complex corporate world Philosophers in particular have learned or perhaps have relearned how their speculations on ethics must take into account the living ethic expressed in the American culture and here anthropologists sociologists and theologians were needed to provide an expertise that the moral manuals did not BUID Doctoral Research Conference 2024 Khalid Al Marri,Farzana Asad Mir,Ahmed Awad,Ahmed Abubakar,2025-05-16 This book presents selected contributions on a wide range of scientific and technological areas originating from the BUID Doctoral Research Conference BDRC 2024 It discusses the following topics project management macroeconomic factors Fourth Industrial Revolution agility multiculturalism diversity inclusion leadership language discourse analysis curriculum critical thinking programming online learning and natural ventilation The contributions reflect the multifaceted nature of the research in three academic disciplines i e humanities formal science and applied science This publication shares with its readers genuine research studies and reflections from practitioners on the current practice and understanding in the three academic disciplines The significant findings of these studies have considerable educational industrial and economic implications Madame W Leila Israel Weisberg,2006-02-27 Madame W is Leila Israel Weisbergs collection of family stories spanning more than a century Early in the 20th Century her parents came to America as children from Eastern Europe This book of memories begins with the story of their courageous journey across a continent and an ocean to a new beginning It

then takes us through her childhood growing up in Brooklyn New York during the depression and the impact of World War II Graduation from Brooklyn College was an important milestone Then marriage and raising a family of six children The final sections concern retirement her life in Atlanta and adventures with all the grandchildren Leila has been collecting stories for seventy nine years but it wasnt until she retired that she started writing them down This collection began as an annual letter of stories and reminiscences sent to her children and grandchildren It soon became apparent that the stories needed to be collected and published What she considered her ordinary life is perhaps more extraordinary than she thought This work has been a labor of love and there are many stories yet to be written Volume two must be on the way because we still dont know the logic behind Davids request for Spanish Pie for his birthday cake or about the day Ilene played hooky from school or when Wendy was left behind in the Capitol in Washington DC or the story of how Quanky Marcies toy duck went flying out the car window
