shape the practices processes and effects of organization It is in this spirit that each chapter focuses on a specific technological object such as the Battery Clock High Heels Container or Smartphone asking the question how does this object or process organize In staying with the object the chapters remain committed to the everyday empirical world rather than being confined to established disciplinary concerns and theoretical developments As the first sustained and systematic interrogation of the relation between technologies media and organization this Handbook consolidates deepens and further develops the empirics and concepts required to make sense of the material forces of organization
