1. **THEORY** – The theory of the course is based on the following concepts:

Abstract • Stress impairs information processing in cultured brain neurons and is attributable to a combination of genetic, hormonal, and/or neuronal factors. In the present study, we have used a novel approach to identify the neuronal factors that are involved in the stress response. We have used a combination of genetic, hormonal, and neuronal factors to identify the neuronal factors that are involved in the stress response. We have used a combination of genetic, hormonal, and neuronal factors to identify the neuronal factors that are involved in the stress response.
