Authentic Academic Leadership Jeffrey L. Buller, 2018-02-23 The book explores how to build an approach to academic leadership based on your own personal values convictions and principles Rather than trying to assert that only certain values or even virtues are essential for good leadership the approach taken is to begin with who you really are your true self and then to build a leadership framework consistent with that identity that makes your institution or program stronger We explore why hypocrisy is damaging to any form of leadership but particularly so in higher education where values of scholarship and research are based on the confidence we have in others integrity As a result authenticity even more than such commonly promoted traits of leaders as vision courage and compassion becomes the core of effective leadership in the academy today Through hypothetical case studies and thought experiments the book challenges administrators to identify a small set of core values that truly define who they are as academic leaders and then to use those values as the basis for a philosophy of leadership that guides them through the turbulent changes occurring in higher education today *Empower Your Purpose* Jared Sawyer Jr, 2017-11-21 Every now and then it is important that we stop and ask ourselves What is my purpose Am I living according to my purpose Am I empowering my purpose Remember you were made for greatness not mediocrity We are not human beings having a spiritual experience but we are spiritual beings having a human experience As spiritual beings entombed in a human body we were formed in the image and likeness of the creator A God of purpose Jared Sawyer Jr author of *Walking In Victory* reveals how to align your destiny and God's will for your life to empower your purpose What does it mean to empower your purpose It means to live consciously and intentionally It means to become the most magnificent version of yourself there is This happens through the achievement of success by expanding your natural skills
